

State of Alaska FY2020 Governor's Operating Budget

Department of Public Safety Search and Rescue Component Budget Summary

Component: Search and Rescue**Contribution to Department's Mission**

Preserve public peace; protect life, property, and resources.

Core Services

- Initiate search and rescue (SAR) action for the recovery of lost or missing persons.
- Coordinate rescue operations for injured persons; conduct recovery operations for deceased persons.
- Coordinate small and large-scale responses to search and rescue events including resource management, interagency coordination, and the use of private resources, various agencies, and private persons.
- Reimburse public and private organizations for resources spent during search and rescue operations.
- Provide aircraft for search and rescue missions.
- Provide logistical support and technical expertise to local law enforcement and volunteer organizations, including provision of equipment, search management, and planning operational support.
- Train and support volunteer resources through professional conferences, local seminars, and practical exercises.
- Review training plans submitted by volunteer organizations.
- Manage worker's compensation program for volunteer search and rescue participants while engaged in search and rescue activities.
- Coordinate resources with the rescue coordination components of the Alaska National Guard and U.S. Coast Guard to meet the requirements of the National Search and Rescue Plan.
- Manage preventative programs to educate the public on wilderness-related risk and methods to mitigate risk and reduce the loss of life or injury to persons.
- Provide tuition-free classes to target audiences, including high school students and young adults, in avalanche-prone areas of the state. Emphasis is given to areas having a history of avalanche-related emergencies.
- Manage the Missing Persons Clearinghouse statewide for all law enforcement agencies.
- Maintain, repair, supply, and track portable Alaska Land Mobile Radio (ALMR) for Department of Public Safety commissioned personnel to include Alaska State Troopers, Alaska Wildlife Troopers, Fire Life and Safety and Court Service Officers.

Major Component Accomplishments in 2018

The Department of Public Safety (DPS) responded to 759 SAR related incidents in FY2018. These incidents included overdue hunters, snowmobilers, hikers, boaters, and medical evacuations off the road system. After investigation of these incidents, 410 incidents required SAR resources. Within these 410 incidents, 1,056 persons were assisted, located, or recovered.

DPS and SAR partners statewide responded to five overdue aircraft reports, 110 emergency beacon alerts, 25 reported aircraft crashes; these 25 incidents included seven aircraft fatality crashes, one aircraft injury crash, and 17 aircraft crashes involving property damage only.

DPS partnered with the Alaska Avalanche Information Center under contract to provide backcountry safety training to the public in Anchorage, Mat-Su, Copper River Basin, Fairbanks, Juneau, Sitka, Ketchikan, Mt. Edgecombe, Skagway, Haines, Valdez, Thompson Pass, Kenai, and Summit Lake. The total number of courses completed over the season was 53 with a total of 7,290 participants.

DPS continues to support the Alaska Search and Rescue Association (ASARA), with training, coordination, and administrative support. During FY2018, ASARA allocated \$83,871 for statewide training and equipment as dictated by their FY2015 state grant of which \$48,275.15 was expended. As part of this effort, SAR volunteers received specialized training under the FY2015 state grant, along with organized semiannual training exercises to ensure operational proficiency within the search and rescue arena. Training across the state in critical topics included the following:

- NSP Avalanche I Class (South Central)
- SAR Dog Avalanche Workshop (Matsu)
- NSP Mountain Travel 1 & 2 (South Central)
- NASAR SAR Tech II & FUNSAR class (South Central)
- Rigging for Rescue rope rescue training (Juneau)
- Dry Suit & Mask Certification Course (Anchorage)
- SAR Dog Air Scent Workshop (Matsu)
- Rigging for Rescue rope rescue training (Girdwood)
- NASAR SAR Tech II & FUNSAR class (Cordova)
- Wilderness First Aid (Kodiak)
- Avalanche Refresher (Kodiak)
- Wilderness First Responder Recertification (South Central)
- Initial Response Incident Commander course (Sitka)
- AIMT Fall Workshop (Statewide)
- Equipment for Alaska Dive Team (Anchorage)
- UAS Equipment (Statewide)

ASARA continues to develop an advanced search managers training program and response team. The program, referred to as the (AIMT SAR), developed with joint support of the ASARA Board of Directors and the SAR Coordinator. AST recognize the need for highly trained individuals with capabilities to manage multi-operational period searches. With ASARA's support, the AIMT SAR continues to develop Incident Command System (ICS) capabilities across the state of Alaska. Members of the AIMT SAR specialize in the ICS, additional search and rescue management techniques and support. These unique volunteers have highly specialized skill sets in search management and have expanded their activities across the state to further the mission of the department.

Now part of core services function of SAR, in FY2018, the Missing Persons Clearinghouse received approximately 700 missing person and runaway cases reported. There are currently about 1,500 active missing person cases that span a range from 1960 to 2018. The Missing Persons Clearinghouse is responsible for distributing statewide bulletins and coordinating with law enforcement agencies and the public across the country to submit forensic samples such as DNA and dental charts into databases such as National Missing and Unidentified Persons System (NamUs) and National Crime Information Center (NCIC). During FY2018, a review of the files was continued and found that most of them have deficiencies that need additional investigative steps and the work has been taking place file by file to bring them up to date. This is a slow process as most of the files are paper based, with different processes and policies of what information needed to be collected and documented during the different time periods involved. This is also slowed by the fact that it is a one-person assignment and new cases continue to come in that have to be dealt with in a timely manner.

Key Component Challenges

Environmental factors in Alaska are unpredictable; therefore, every search and rescue (SAR) is as an emergency. The Department of Public Safety, (DPS) is statutorily required to provide SAR operations for lost, missing, and the recovery of deceased persons on land. DPS is responsible for land-based services regardless of location. DPS receives assistance by federal, state, local and volunteer agencies to perform this function. SAR decisions are based upon the likelihood of mission success under acceptable search conditions. The safety of searchers when evaluating the conditions is the highest priority. DPS provides technical expertise and support to criminal investigations and traffic enforcement to local police departments.

As the civil authority for Alaska search and rescue, DPS must exhaust all available resources prior to requesting military assistance through the 11th Air Force Rescue Coordination Center on Joint Base Elmendorf / Richardson (JBER) during land search and rescue missions. The U.S. Coast Guard (USCG) is responsible for SAR at sea, and frequently assists DPS with searches along Alaska's coastline. The U.S. Air Force has responsibility for searches of downed or missing aircraft, and like the USCG will frequently assist DPS during searches. Volunteers in communities across the state are often used in searches. This reliance on local assets and the use of volunteer resources is the primary responsibility of DPS on search and rescue missions. When local resources are unavailable or unable to make the most effective rescue, DPS will turn to the military for assistance. Maritime and inland searches involving USCG or Air Force assets are not traditionally billed to DPS.

The portable radios currently used by the department (XTS5000 P25), which are Alaska Land Mobile Radio (ALMR) capable with and without encryption, are rapidly reaching their usable shelf life. Motorola announced they will cease repairing and servicing the radios at the end of the calendar year. The department has been unable to purchase new XTS5000 P25 portables, and is challenged with maintaining serviceable radios. DPS is currently able to purchase replacement batteries from other vendors; however, it is unknown when these vendors will stop supplying batteries as more and more agencies transition to the new APX8000 P25 portables. In anticipation of a complete radio replacement, the department has been purchasing dual capable chargers for both types of portables, saving the state money. A department wide changeover will cost approximately \$3.5 million dollars.

Significant Changes in Results to be Delivered in FY2020

Department Public Safety (DPS) will continue to support the volunteer organizations with training, coordination of activities, and increased participation in joint activities statewide. DPS expects to assist new volunteer organizations within the state to become operationally ready to respond to SAR operations. DPS continues to identify gaps in response capabilities and finds ways to correct these discrepancies with training, inter-agency cooperation or partnerships. DPS will continue to build quality relationships with local, state, and federal partners statewide in an effort to make SAR responses more efficient and effective for the citizens of the state of Alaska.

DPS makes use of multiple aviation assets during SAR operations. The most effective assets are the division's two A-Star helicopters based in Anchorage and Fairbanks. The Fairbanks A-Star is equipped with a rescue basket to carry litter patients. The Anchorage based A-Star is equipped with emergency floats for rescues in Cook Inlet and surrounding waters. New infrared thermal camera systems were purchased for these assets which will have a positive impact on DPS' ability to respond to requests for SAR statewide.

Statutory and Regulatory Authority

DPS-Powers and duties of department (AS 44.41.020)
State Troopers (AS 18.65.010 - AS 18.65.110)
Police Protection (AS 18.65.010 - AS 18.65.790)
Law enforcement duties (AS 18.65.010 - AS 18.65.086)
Search & Rescue (AS 18.60.115 - AS 18.60.175)
Department to assist other agencies (AS 18.65.090)
Missing Persons Information Clearinghouse (AS 18.65.600 – AS 18.65.660)
Law Enforcement Use of Unmanned Aircraft Systems (AS 18.65.900 – AS 18.65.909)
Search and Rescue of Person (13AAC 20.005 – 13AAC 20.035)
