appropriated funding.

- Increasing recruitment and retention of essential services staff for rural communities through localized housing developments;
- New housing in at least four rural Alaskan communities for Teachers, Health Professionals, or Public Safety officials housing in rural Alaska;
- Lowering interest rates on AHFC mortgage programs to attract loan volume and generate net income.

This program will provide funds to supplement the Alaska Housing Finance Corporation’s popular housing programs through gap funding. This funding will allow AHFC to continue current programs and expand business opportunities with new Teacher Housing, Health Professionals, and Public Safety housing programs.

**Program Description:**

The primary focus of this program has been to provide a source of grant funds that will help pay for the development of decent, safe, and affordable rental housing for teacher, health professionals, and public safety officials. This program has and will continue to generate additional loan volume for AHFC. Since 2004, 454 new units across 111 distinct properties have been funded through this program.

Attracting and maintaining a pool of qualified teachers, health professionals, and public safety officials in rural Alaska is a goal of the State of Alaska. In order to achieve this, housing must be available, affordable, and of a quality that encourages these professionals to locate and stay in rural settings. These programs were developed to respond to the need for additional housing for professionals and their families by providing grants to fill the funding gap for various housing projects. Funding is made available through a competitive process for new construction, rehabilitation, and acquisition of housing.
