

Village Safe Water and Wastewater Infrastructure Projects **FY2021 Request: \$64,830,000**
Reference No: 41376

AP/AL: Appropriation with Allocations **Project Type:** Water / Sewer / Solid Waste
Category: Health/Human Services **Recipient:** Various
Location: Statewide **House District:** Statewide (HD 1-40)
Impact House District: Statewide (HD 1-40) **Contact:** Amber LeBlanc
Estimated Project Dates: 07/01/2020 - 06/30/2025 **Contact Phone:** (907)465-6594

Brief Summary and Statement of Need:

The Village Safe Water program provides financial and technical assistance to rural communities to plan, design, and construct water and sewer system improvements. Sixty percent of the funding provides first-time service to communities while forty percent is used for expansion, upgrade, and replacement of existing service.

Funding:	FY2021	FY2022	FY2023	FY2024	FY2025	FY2026	Total
1002 Fed Rcpts	\$52,250,000	\$52,250,000	\$52,250,000				\$156,750,000
1003 G/F Match	\$12,080,000	\$12,080,000	\$12,080,000				\$36,240,000
1108 Stat Desig	\$500,000	\$500,000	\$500,000				\$1,500,000
Total:	\$64,830,000	\$64,830,000	\$64,830,000	\$0	\$0	\$0	\$194,490,000

Project Description/Justification:

The facility construction component within the Division of Water provides technical and financial support to Alaska's communities to design and construct drinking water and sanitation facilities. Communities apply each year to the State for grants for these projects. Applications are scored based

primarily on the extent to which proposed projects address critical public health needs, as well as the communities' capacity to operate and maintain the facilities. High-ranking projects are placed on a multi-year priority list, which identifies projects to receive funding over the next several years. The majority of project awards made under this program are eligible for grant funds made available to the state through the federal government. A portion of the federal grant monies available requires the state to appropriate matching funds.

Each year communities propose more projects than the state has funding available. When projects are proposed, total costs are estimated based on the best information available but are subject to change. Balances in these projects may be shifted to augment other projects that were underestimated or applied to other approved projects on the waiting list based on a first-ready, first-served basis.

Statutory designated program receipts (SDPR) are required due to the nature of these large construction projects in which there is a common occurrence of program income. This happens when project resources (often-heavy equipment, but sometimes excess material such as gravel) are needed to provide a benefit to the community, outside the scope of the project. Federal grant funding agencies do not allow project resources to be used for such purposes so payment is required. SDPR funds are generally used to augment project funding, but can be used for any scope that is eligible for the federal funding that was used for the project.

A portion of federal and state match funds may be used for the planning and development of alternative safe drinking water and sanitation technologies.
