1061 CIP Rcpts		-134.7										
Delete a full time Accountant IV (18-7166), range 20, located in Anchorage, and related authority that is no longer needed due to efficiencies. In FY2017, the department transferred the accounting group that supported the Village Safe Water and Municipal Grant and Loan programs into the Division of Administrative Services, where the department's primary Financial Services section is housed. Since that time, the State has transitioned onto the IRIS accounting system, and the department began fully participating in the Shared Services of Alaska travel and payables initiatives. The department has realized efficiencies through these efforts that will allow for the elimination of one Accountant IV position. This reduces the administrative costs charged to Village Safe Water projects, freeing up more funding to go towards direct project costs.

Eliminate Dairy Program

	Dec	-179.6	-131.6	0.0	-40.0	-8.0	0.0	0.0	0.0	-1	0	0
1004 Gen Fund		-164.6										
1108 Stat Desig		-15.0										

Eliminate the commercial dairy program in Alaska and a related full-time Environmental Health Officer III (18-7235), range 18, located in Anchorage.

The Department of Environmental Conservation (DEC) manages Alaska's dairy regulatory program in accordance with FDA's Grade "A" Pasteurized Milk Ordinance (PMO). This ensures Alaskan milk products entering commerce are manufactured, sold, and delivered in a safe and wholesome condition. The PMO requires a licensed veterinarian to oversee a regulatory program for the inspection of animal health conditions at the state's dairy farms, verification of sanitary conditions, of the facility and equipment at milk processing plants and issuance of permits to the dairy industry.

The FDA provides approval of state dairy programs and individual states that have a commercial dairy industry are required to maintain regulatory dairy programs in accordance with the PMO. Without an FDA approved state program, commercial dairy operations will be unable to:

- Sell dairy products to institutions that receive federal funds to subsidize meal programs (military, schools, prisons, etc.)
- Sell products interstate
- Sell products to national retail chains whose corporate standards require Grade "A" certification

The department has statutory authority to charge dairies for direct costs but any meaningful fee would be an undue hardship on the dairies due to the small-scale of the industry. There is currently only one cow dairy in operation in Alaska, and a small goat dairy was recently permitted.

Eliminating the dairy program will not increase risk to public health as unregulated milk will not enter the market. Raw, local milk will still be able to be purchased through a cow-share program.

Replace Commercial Passenger Vessel Environmental Compliance Fees and Reduce Commercial Shellfish Testing Subsidy

	FndChg	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		228.8										
1005 GF/Prgm		228.9										
1166 Vessel Com		-457.7										

Replace Commercial Passenger Vessel Environmental Compliance (CPVEC) fees with a combination of general funds and program receipts. In FY2021, the department is charging commercial shellfish operations fees for testing services provided. The department will continue to phase in fee increases for regulatory testing in future years and to reduce the industry's general fund subsidy. Eventually, the testing program will be completely funded by the industry.

										PFT	PPT	NP
<p>Since FY2009, the commercial shellfish industry has received subsidized required analytic testing for shellfish. The commercial industry continues to rely on this government subsidy and does not pay the existing fees for regulatory shellfish testing, only the cost to collect and ship samples to the Environmental Health Laboratory. The direct cost to provide commercial shellfish testing services is \$454.6, which is currently funded by Commercial Passenger Vessel Environmental Compliance (CPVEC) fees.</p> <p>In addition to the fund source change for testing services, the department continues to subsidize the permitting program, which is currently funded by \$212.3 GF and \$56.7 GF/PR from permit fees paid by commercial shellfish operations. The State's Shellfish permitting and compliance program is required for the Alaska mariculture industry to participate in interstate and international commercial shellfish markets. The program operated by the Department of Environmental Conservation is approved by the FDA. An FDA approved laboratory is essential to analyze regulatory samples of growing waters for fecal bacteria and other contaminants, and for the presence of toxins in the shellfish meats, such as paralytic shellfish toxin and domoic acid. The Department's Environmental Health Laboratory is currently the only FDA approved laboratory in Alaska. No private laboratories in Alaska have obtained FDA approval, and it is unlikely that another state laboratory outside Alaska will be able to process shellfish samples from Alaska without compensation.</p>

Add authority to improve transparency by budgeting use of the Response Account of the Oil and Hazardous Substance Release Prevention and Response Fund. The department can use this funding without an appropriation in the event of a release or threatened release which poses an imminent and substantial threat to human health and the environment. These expenditures are reflected as Oil/Haz interagency receipts. This adds a portion of personal services in this fund source to the budget based on recent year actuals to more accurately reflect costs.

Reduce Authority to Align with Anticipated Revenue and Expenditures												
	Dec	-1,019.1	-1,019.1	0.0	0.0	0.0	0.0	0.0	0.0	-7	0	0
1002 Fed Rcpts		-375.6										
1052 Oil/Haz Fd		-643.5										
<p>Reduce authority and positions to align with anticipated revenue and avoid a shortfall. Without a reduction, projections for the Prevention Account of the Oil and Hazardous Substance Release Prevention and Response Fund show the fund running in the red as early as FY2024. This is due in part to declining production of crude oil that provides the \$0.04 per/barrel surcharge, and in part to unanticipated exemptions to the \$0.0095 per/gallon refined fuel surcharge for municipalities and utility cooperatives. Prevention Account operating expenditures are reduced in order to better align with projected annual revenue.</p> <p>The Class II Facilities Unit is eliminated and regulation of Alaska's expanding inventory of Class II aboveground storage tank facilities is terminated. Class II facilities are non-residential, non-crude storage tanks that have a capacity between 1,000 and 420,000 gallons. This was a non-regulatory program that focused on spill prevention. The workload of the other deleted positions will shift to existing staff, increasing the backlogs of industry policy and regulation support requests, and contaminated site cleanup efforts.</p> <p>The following positions are deleted: Full-time Environmental Program Specialist III (18-7187), range 18, located in Juneau Full-time Environmental Program Specialist III (18-7321), range 18, located in Juneau Full-time Environmental Program Technician (18-7368), range 13, located in Juneau Full-time Engineering Associate I, DEC (18-7475), range 21, located in Anchorage Full-time Office Assistant II (18-7496), range 10, located in Anchorage Full-time Environmental Program Specialist II (18-7625), range 16, located in Anchorage Full-time Environmental Program Specialist I (18-7658), range 14, located in Anchorage</p>

State agency travel budgets, not covered under the exemptions of public safety, health, and disaster management, were reduced 50% in the Governor's FY2020 budget. Veto action removes legislative increases to state travel. Agencies will rely on technology and management efficiencies to reduce the amount of state employee travel.												
The State's fiscal reality dictates a reduction in expenditures across all agencies.												
Eliminate the Ocean Ranger Program

Add Environmental Program Manager III (18-7863) to Oversee Drinking Water and Sanitation Facility Programs	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	0	0
Add a full-time Environmental Program Manager III (18-7863), range 22, located in Juneau, to coordinate state and federal funds used for constructing, improving, and maintaining drinking water and sanitation facilities across the state, particularly in rural communities. The position represents the state's interest in strategic planning for providing sanitation services in rural Alaska, and develops a cohesive approach with partner agencies such as the Alaska Native Tribal Health Consortium, and federal funders including the Environmental Protection Agency (EPA), USDA Rural Development, and Indian Health Service, to meet overall sanitation funding needs throughout the state.

Add Authority for Alaska Pollutant Discharge Elimination Systems Permitting and Compliance Program												
	Inc	573.0	423.2	149.8	0.0	0.0	0.0	0.0	0.0	4	0	0
1002 Fed Rcpts		573.0										
Add authority to support the work of four new Environmental Program Specialist positions for the Alaska Pollutant Discharge Elimination System (APDES) compliance and enforcement program, which is the primacy program enforcing portions of the Clean Water Act, as well as additional travel required to conduct inspections and improve program performance.												
The State of Alaska has been delegated primacy over a portion of the federal Clean Water Act which is implemented through APDES. The program permits all major industries in Alaska, including oil and gas, mining, timber, seafood processing, construction and municipal wastewater treatment. These businesses require a stable permitting environment. The department is reprioritizing existing resources where available to support APDES program performance and has sufficient Federal grant revenue to cover the costs, but there is insufficient authority to expend those funds.												
Transfer to Division of Air Quality for Program Alignment of Cruise Ship Air Monitoring												
	Trout	-312.6	-123.9	-10.0	-178.7	0.0	0.0	0.0	0.0	-1	0	0
1166 Vessel Com		-312.6										
Transfer enforcement of cruise ship air quality requirements from the Division of Water to the Division of Air Quality for better program alignment. This includes the transfer of a full-time Environmental Program Specialist III (18-7825), range 18, located in Juneau, as well as support costs for related travel and contractual obligations for ambient air monitoring, visible emissions opacity, and Department of Law costs. Air quality aspects of the program include conducting compliance activities associated with opacity requirements for marine vessels, air quality complaint response, data management, and ambient monitoring to address public concerns and assess emission impacts in port(s).												
Use Commercial Passenger Vessel Environmental Compliance Fees to Regulate Wastewater in Port Communities												
	FndChg	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		-454.6										
1166 Vessel Com		454.6										
Change fund source from General Fund to Commercial Passenger Vessel Environmental Compliance Fund in the Division of Water for expenditures related to regulating wastewater systems in port communities visited by cruise ships.												
Cruise ships brought 1.2 million passengers to ports throughout coastal Alaska in 2019. The wastewater systems in these port cities are designed to handle the year-round population, however, the influx of seasonal visitors using restroom facilities on shore can put a strain on the systems and cause environmental impacts.
