Project Description/Justification:

This project will allow the Department of Military and Veterans Affairs (DMVA) to begin immediate implementation of a Mass Notification System in facilities occupied by State of Alaska employees, United States Coast Guard and Alaska Army National Guard personnel in accordance with Department of Defense (DoD) Unified Facilities Criteria (UFC) 4-021-01 DESIGN AND O&M: MASS NOTIFICATION SYSTEMS (2010) to improve safety and security by providing alerts and real-time instruction during a crisis.

DMVA is required by federal regulation to implement Mass Notification in compliance with antiterrorism requirements as specified in UFC 4-010-01 DoD MINIMUM ANTITERRORISM STANDARDS FOR BUILDINGS, National Fire Protection Association (NFPA) Standard 72 (including Annex E) and achieve coordination of DoD mass notification capabilities with national systems as required by Executive Order 13407.

The department is responsible for 112 facilities totaling 897,000 square feet and the Alaska Army National Guard communication towers, parking lots, roadways, and military vehicle and equipment

storage yards. This modern Mass Notification System is a vital component to providing increased levels of life, health and safety for the occupants of DMVA facilities. This includes visiting dignitaries, community members, State of Alaska employees, and military personnel through the utilization of intelligible voice communications along with visible signals, text, and graphics.

The purpose of mass notification is to protect life by indicating the existence of an emergency, and by instructing people of the necessary and appropriate response and action. Capital projects contribute to the department's mission by providing modern, functional infrastructure that enables the Army National Guard readiness efforts in support of Federal and State missions.

If this project is not funded life, health and safety of Alaskans are jeopardized. DMVA risks losing federal modernization dollars that National Guard Bureau contributes to Alaska's economy.

A request for the remainder of the funds necessary to complete the project has been submitted in the FY2021 Capital Budget.
