Project Description/Justification:

Roof, envelope, and fall protection projects at Alcantra Readiness Center Facilities Maintenance Shop, Kenai Readiness Center, and Sitka Readiness Center Outlying Buildings will address issues of life safety, protection of structure, and code compliance.

The Department of Military and Veterans Affairs in partnership with the National Guard Bureau is responsible for maintaining and operating the Readiness Center. This project replaces weathered and damaged roofing, siding, windows, and doors to reduce air and water infiltration, extend the life of the facility and help to stabilize operating costs. The project will contribute to the department's mission by providing modern, functional infrastructure that enables the Army National Guard readiness efforts in support of federal and state missions.
