Prior Funding History / Additional Information:

This is the first year of the project.

Project Description/Justification:

Present tanks are under-sized requiring frequent, expensive, additional services when the Readiness Center has soldiers in drill-status or when Alaskans require a suitable venue for community outreach programs. The Department of Military and Veterans Affairs is responsible for maintaining and operating the Readiness Center and Army Airfield Operations Facility (AAOF) in Bethel. This project increases the capacity of the potable and non-potable water holding-tanks. This project contributes to the department's mission by providing modern, functional infrastructure that enables the Army National Guard readiness efforts in support of federal and state missions.
