

# **State of Alaska FY2021 Governor's Operating Budget**

## **Department of Military and Veterans Affairs Alaska Land Mobile Radio Component Budget Summary**

## Component: Alaska Land Mobile Radio

### Contribution to Department's Mission

Assure that emergency wireless telecommunication services are reliable and available.

### Results

(Additional performance information is available on the web at <https://omb.alaska.gov/results>.)

### Core Services

- Provide day-to-day and emergency radio services for Alaska's first responders from the State of Alaska, Department of Defense (DoD), Non-DoD Federal Agencies, local municipalities and volunteer agencies.

### Measures by Core Service

(Additional performance information is available on the web at <https://omb.alaska.gov/results>.)

1. Provide day-to-day and emergency radio services for Alaska's first responders from the State of Alaska, Department of Defense (DoD), Non-DoD Federal Agencies, local municipalities and volunteer agencies.

### Major Component Accomplishments in 2019

- Alaska Land Mobile Radio (ALMR) System carried 24,911,972 push to talks, 13,455,301 group calls with a system call busy rate of less than 1 one thousandth of 1 percent (<.01%).
- ALMR System management staff has performed 83 periodic maintenance inspections, which is 98 percent of the total ALMR sites, ensuring high reliability of the public safety communications system.
- ALMR Operations Management staff completed annual inventory of approximately 21,986 subscriber units belonging to 125 member agencies.
- ALMR System Management staff continued providing technical advice and support for completion of the project to replace the Gold Elite consoles with state-of-the-art MCC7500 IP-based consoles at state dispatch centers.
- ALMR System Operation Management staff provided planning and coordination for the installation of GTR8000 site radios replacing no longer supported Quantar site radios at six DOD sites.
- ALMR remained fully operational and provided critical communication capability to member agencies during and after the 7.1 earthquake on November 30, 2018.
- ALMR System provided critical communications support to first responders during the Oregon Lake, Swan Lake, Caribou Creek, Shovel Creek, Hess Creek, and MLK (Anchorage) wild land fires.
- ALMR System Operations Management staff provided technical and administrative support for the installation of DiagnostX devices on the System to monitor ALMR subscriber performance.

- ALMR System and Operations Management staff coordinated planning and installation for the 7.17.3 iteration of the ALMR Motorola operating system software and hardware.
- System Management Help Desk accepted and processed 3,925 work order/service requests from ALMR member agencies.

## Key Component Challenges

**Consortium Funding** – The Alaska Land Mobile Radio (ALMR) System is governed and financed under a Consortium Agreement among the State of Alaska, the Department of Defense (DOD), federal agencies and local municipalities and volunteer agencies in Alaska. Annual operational and maintenance costs are allocated across paying consortium members and system users based on a cost share agreement. Annual operating funds are dependent on consortium members securing their share of System costs.

**End-of-life and End-of-Support Equipment** – The ALMR system contains numerous technology components that require periodic refresh and replacement. Members of the consortium must move in alignment to accomplish refresh and replacement. The Anchorage Municipality and, the DOD have nearly, completed refreshing the portions of the system they own. The State of Alaska (SOA) needs to replace and refresh critical system equipment to continue to be a partner in the shared, public safety communications system. If the SOA does not upgrade its portion of the system, the DOD and Anchorage Municipality may separate from the partnership.

## Significant Changes in Results to be Delivered in FY2021

**ALMR Site Hardware Lifecycle Replacement** - Perform the next major technology upgrade of the system to increase system capacity and begin the first phase for the replacement of end-of-life subscriber radios for the State of Alaska (SOA) users if funding is made available.

## Statutory and Regulatory Authority

AS 44.21.020(10), (11) Duties of Department  
AS 44.21.045 Information Services Fund  
AS 44.21.150-170 Automatic Data Processing  
AS 44.21.305-330 Telecommunications  
2 AAC 21 Information Services

 Transfer the Alaska Land Mobile Radio (ALMR) from the Department of Administration to the Department of Military and Veterans Affairs (DMVA) for better mission alignment. ALMR's purpose is to communicate emergency notices with outlying communities. This function better aligns with DMVA's mission to provide homeland security and defense, and emergency response.
