State of Alaska FY2021 Governor's Operating Budget

Department of Corrections Physical Health Care Component Budget Summary

| | FY2021 Governor | Released December 23, 2019 |
|---|--------------------------|----------------------------|
| D | epartment of Corrections | Page 1 |

Component: Physical Health Care

Contribution to Department's Mission

To provide essential physical health care for offenders who are committed to the custody of the department.

Core Services

• Provide Required Physical Health Care Services

Major Component Accomplishments in 2019

Physical Health Care expanded the inclusion criteria for Hepatitis C (HCV) treatment to include all offenders with active virus in the bloodstream. As much as one-third of the Alaska corrections population has HCV. The department has the highest concentration of individuals with this diagnosis and with the availability of new curative medications, the department plays a vital role in eradicating this disease.

A contract was secured with a national company to provide in-house dialysis treatment to the offender population. The unit's architectural design was completed, and construction will begin in fall of FY2020.

The Medicaid Advisory Committee continued to meet weekly to review high-cost medical cases, special procedure requests, and end of life patient treatment plans.

The Utilization Review Committee (URC) continues to review all requests for outside medical services. The URC considers community standards of care, correctional standards of care, medical necessity, length of incarceration and cost to the department in order to determine the safest and most cost-effective treatment options.

Instituted an Infectious Disease Response Team.

Joined state and federal health partners in a nationwide hepatitis C eradication effort.

Key Component Challenges

Deliver essential health care while meeting appropriate quality and compliance standards. Challenges include:

- Higher acuity due to increases in chronic health issues and complex substance use
- Increase in catastrophic health care cases
- Aging offender population
- Higher number of high-risk pregnancies and deliveries
- Rising medical costs
- New essential medications available without a generic alternative
- Increased medication costs

The infirmary at the Anchorage Correctional Complex is full every day and there is a waiting list.

Recruitment and retention of health care staff.

Ability to seek guardianship for offenders who no longer have the capacity to make health care decisions for themselves.

Significant Changes in Results to be Delivered in FY2021

No changes in results delivered.
