Project Description/Justification:

The program focuses on community re-entry for Mental Health Trust Beneficiaries who are exiting the Department of Corrections. These beneficiaries require extensive supervision and support services to avoid repeat incarceration. The housing and service supports funded through this program will be provided in collaboration with the Department of Corrections and the local behavioral health agencies.

The projected outcomes are:

- Providing persons recently released from Corrections with re-entry assistance to reduce the rates of re-incarceration;
- Reducing the high cost to the State from re-incarcerated Alaskans;
- Improved public health and safety through minimizing disruptive and offending behavior from individuals who might otherwise re-offend if left without housing support.
