**Brief Summary and Statement of Need:**

As directed by the Legislature in 1986, the department began to transfer state owned harbor facilities, whenever possible, to local municipalities in order to maximize local governance. Since then, 78 harbors have been transferred. AS 29.60.800 created a program to provide state financial and economic assistance to a municipality with one or more harbor facilities by making available a 50/50 matching state grant, and it established a priority preference process for previously stated owned harbors, i.e. Tier I harbors. Tier II harbors are harbors which were locally built and were never owned by the state.

AS 29.60.800 continues to see strong support from the municipalities across the state from Nome to Unalaska to Kodiak to Juneau. To date, the total amount requested in match totals \$187.1 million, which far exceeds the amount of state funds appropriated to date to the harbor grant program. Still the department has been able to award 42 (25 Tier I's and 17 Tier II's) harbor grants to the municipalities. These harbor grants total over \$83.2 million in needed local economic assistance, which results in improved marine facilities for the fishing industry and puts Alaskans to work.
