Measures by Core Service

(Additional performance information is available on the web at https://omb.alaska.gov/results.)

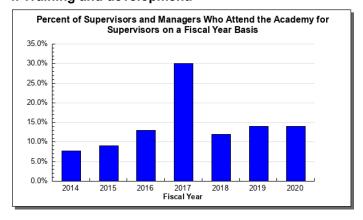

1. Recruitment and re-employment.

2. Job classification.

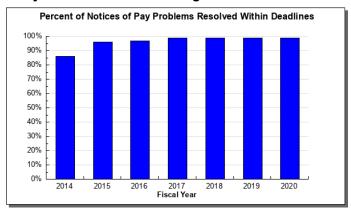

3. Employment related human rights compliance.

4. Training and development.

5. Payroll and leave accounting.

Major Component Accomplishments in 2020

- Leading the implementation of Administrative Order (AO) 305 to streamline and increase accountability of HR
 activities within the Executive Branch of the State of Alaska by realigning HR staff to create a clear reporting
 structure to the Director of DOPLR. Included all department staff in the design and development of the
 re-organization. Once finalized, the consolidation will resolve 57% of identified HR process inefficiencies, through
 process standardization.
- Led implementation of the Pathway Project, which ensures worker health and safety, and continuity of services to the State of Alaska, by equipping State of Alaska employees with the clarity, structure, training, and ongoing support they need to be successful and adaptable while teleworking during COVID-19.
- Spearheaded design, development, and deployment of a digital Learning Management and Performance
 Management System to make performance reviews more accessible and encourage continuous improvement
 and develop an approachable learning management system to encourage skill-based learning and ongoing
 professional development
- Completed 12 classification studies encompassing 47 job classifications and 919 positions. Completed 1 salary review encompassing 6 job classes and 393 positions. Processed 17 maintenance requests encompassing 54 job classes.
- Issued the FY2019 Workforce Profile.
- Learning and Development staff quickly prepared and presented webinars to get 1500 Executive Branch supervisors ready to manage the performance of their employees remotely as the State moved to mitigate the Covid19 pandemic.
- Division leadership developed new policy, forms, and guidance to expedite the successful teleworking of roughly 5800 Executive Branch employees within a very brief timeframe.

Key Component Challenges

Learning and Development – Implementation of a Learning Management System to supplement classroom training and increase accessibility to rural locations. Developing a Performance Management System to support teleworking supervisors as well as in office staff to improve consistency and performance for Executive Branch employees.

Payroll – The execution of structural changes that will improve processes and procedures to make a cohesive environment to successfully operate with some staff teleworking, but a larger proportion of our Payroll staff continuing to work in our office locations. The process of moving to a more digital workflow to improve the heavy manual processes while adhering to record retention requirements.

Significant Changes in Results to be Delivered in FY2022

Full implementation of an online, digital Performance Management System, an Onboarding system as well as a Learning Management System as part of development of a telework infrastructure to ensure worker safety during the ongoing COVID-19 pandemic. Full integration of agency human resource staff's work functions, supervision and products into the Division of Personnel.

Full implementation of the HR Transformation (AO 305), consolidating HR staff across Executive Branch departments into DOPLR, standardizing processes, reducing costs, and offering more HR services for departments.
