

Village Safe Water and Wastewater Infrastructure Projects: FY2022 Request: \$0
Expansion, Upgrade, and Replacement of Existing Service Reference No: 63209

AP/AL: Allocation **Project Type:** Water / Sewer / Solid Waste
Category: Health/Human Services **Recipient:** Various
Location: Statewide **House District:** Statewide (HD 1-40)
Impact House District: Statewide (HD 1-40) **Contact:** Randy Bates
Estimated Project Dates: 07/01/2020 - 06/30/2025 **Contact Phone:** (907)465-5307
Appropriation: Village Safe Water and Wastewater Infrastructure Projects

Brief Summary and Statement of Need:

The Congressional delegation was successful in securing an additional \$11 million in federal appropriations for Alaska's Village Safe Water program in FY2021, which requires additional State match of \$3.65 million. The Department has sufficient existing federal authority. The Village Safe Water program provides financial and technical assistance to rural communities to plan, design, and construct water and sewer system improvements. Forty percent is used for expansion, upgrade, and replacement of existing service.

Project Description/Justification:

The Department of Environmental Conservation provides technical and financial support to Alaska's communities to design and construct drinking water and sanitation facilities. Communities apply each

Village Safe Water and Wastewater Infrastructure Projects: FY2022 Request: \$0
Expansion, Upgrade, and Replacement of Existing Service Reference No: 63209

year to the State for grants for these projects. Applications are scored based primarily on the extent to which proposed projects address critical public health needs, as well as the communities' capacity to operate and maintain the facilities. High-ranking projects are placed on a multi-year priority list, which identifies projects to receive funding over the next several years. The majority of project awards made under this program are eligible for grant funds made available to the State through the federal government. A portion of the federal grant monies available requires the State to appropriate matching funds.

Each year communities propose more projects than available State funding. When projects are proposed, total costs are estimated based on the best information available but are subject to change. Balances in these projects may be shifted to other projects that were underestimated or applied to other approved projects on the waiting list based on a first-ready, first-served basis.
