 Sec4 Ch7 SLA2020 P8 L23 HB234 \$900,000

Project Description/Justification:

Allow the continued implementation of a Mass Notification System in facilities occupied by State of Alaska employees, United States Coast Guard and Alaska Army National Guard personnel in accordance with Department of Defense (DoD) Unified Facilities Criteria (UFC) 4-021-01 DESIGN AND O&M: MASS NOTIFICATION SYSTEMS (2010) to improve safety and security by providing alerts and real-time instruction during a crisis. It is required by federal regulation to implement Mass Notification in compliance with antiterrorism requirements as specified in UFC 4-010-01 DoD MINIMUM ANTITERRORISM STANDARDS FOR BUILDINGS, National Fire Protection Association (NFPA) Standard 72 (including Annex E) and achieve coordination of DoD mass notification capabilities with national systems as required by Executive Order 13407.

The Department of Military and Veterans' Affairs (DMVA) is responsible for 112 facilities totaling 897,000 square feet and the Alaska Army National Guard communication towers, parking lots, roadways, military vehicle and equipment storage yards. This modern Mass Notification System is a vital component to providing increased levels of life, health and safety for the occupants of DMVA facilities, including visiting dignitaries, community members, State of Alaska employees, and military personnel through the utilization of intelligible voice communications along with visible signals, text, and graphics.

The purpose of mass notification is to protect life by indicating the existence of an emergency and instructing people of the necessary and appropriate response and action. Priorities and cost estimates may need to be changed to accommodate emergency maintenance projects not listed, actual project costs, and other considerations.
