

**Wildlife Management, Research and Hunting Access**

**FY2022 Request: \$15,000,000**

**Reference No: 60594**

**AP/AL:** Appropriation

**Project Type:** Research / Studies / Planning

**Category:** Natural Resources

**Location:** Statewide

**House District:** Statewide (HD 1-40)

**Impact House District:** Statewide (HD 1-40)

**Contact:** Eddie Grasser

**Estimated Project Dates:** 07/01/2021 - 06/30/2026

**Contact Phone:** (907)267-2339

**Brief Summary and Statement of Need:**

This multi-year project designates significant short-term investments in the wildlife management infrastructure to use a dramatic increase in available federal Pittman Robertson Wildlife Restoration funding. The project enables the department to plan for targeted wildlife management, research, equipment, and hunter access improvements.

Past capital project reference numbers include FY2015 - 58645, FY2012 - 53833 & 41452, FY2008 - 43393, and FY2007 - 42114.

**Project Description/Justification:**

The department has been apportioned a significant increase in federal funding from the Pittman-Robertson (PR) program. There are two subprograms within PR, Wildlife Restoration and

Hunter Education. The Wildlife Restoration subprogram is primarily used to restore and manage wildlife for the benefit of the public. It cannot be used for hunter education or for shooting ranges; the Hunter Education subprogram is available for those programs. Alaska receives funding through a formula based on land mass and the number of hunting license holders. Due to the geographic size alone, Alaska receives the maximum of five percent of the yearly gross receipts for Wildlife Restoration. The Wildlife Restoration subprogram, 20 to 25 times larger than Hunter Education, derives its receipts from federal excise taxes on the manufacture of handguns, long guns, ammunition, and archery equipment. For long guns and ammunition, 100 percent of the national gross receipts are set aside for this program and 50 percent from handguns and archery equipment. Sales nationwide on these items increased dramatically over the past several years.

A 25 percent match is required from non-federal sources. Fish & Game Fund will be used as match, and the department will accept applications from other non-federal sources to meet the federal grant management guidelines of 25 percent match to receive 75 percent federal funding.

To fully obligate the increased federal dollars, this project will use the funds to help prevent reversion of the federal dollars apportioned to the State. This project will also continue to fulfill commitments made to the constituent groups who successfully lobbied for increased hunting license and tag fees.

**Hunter Access – \$10 million (\$7.5M Federal, \$2.5M Statutorily Designated Program Receipts):** Limited access to hunting grounds results in crowding in accessible areas and has been identified as a constraint to new participation in hunting. Focused use of trails, including legal easements through native corporation lands, can also result in degraded fish and wildlife habitat. This project will construct new or improve existing hunter access across Alaska including land purchases and/or public access easements as necessary. The department will partner with State and local agencies and organizations to improve existing and establish new access on public lands. Projects will be identified through the process outlined at the department’s Hunter Access Grant Program website ([www.hunteraccess.adfg.alaska.gov](http://www.hunteraccess.adfg.alaska.gov)).

Because Pittman-Robertson funds can be dedicated to trail and access improvements for hunting, these projects and others around the state have and will continue to provide an opportunity to use the currently available federal dollars to enhance public hunting access for Alaskans.
