**Project Description/Justification:**

This capital project provides housing modifications for disabled persons, allowing them to remain in their homes and potentially reducing the cost of providing supported housing. This project increases the accessibility of current housing so Alaska Mental Health Trust beneficiaries and other special needs populations can move into or remain in their own homes. Home modifications are available to people wherever they reside, regardless of whether they own or rent, and with whom they live. Approximately 125 families receive modifications to their homes each grant cycle. Many of the agencies receiving these funds have wait lists for the needed modifications. Typical kinds of assistance provided are accessibility modifications or additions (e.g., widening doorways, remodeling

bathrooms or kitchens, installing entrance ramps, adding bathrooms or bedrooms) and related equipment.

Grantees will coordinate their efforts with the Alaska Housing Finance Corporation (AHFC) weatherization program and similar tribal and municipal programs to supply essential repairs or upgrades to building structures (e.g., heating, plumbing, and/or electrical systems, roofs, weatherproofing, energy efficiency improvements). Funds will not be available to duplicate down payment, mortgage buy-down, or building repair and weatherization programs currently operated by AHFC. This program is supported in the Comprehensive Integrated Mental Health Plan, *Moving Forward*.

Use of budget fund code 1268 directs expenditure of money held in reserve in the Mental Health Trust Settlement Income Account in excess of the amount directed for use by the Trust through annual recommendations (state accounting system fund 3321). Per AS 37.14.041(b) money in excess of the amount needed to meet the necessary expenses of the state's integrated comprehensive mental health program shall be transferred to the general fund and used for any public purpose. To ensure these monies are expended to the benefit of the state's mental health program and not swept to the general fund, a portion of the reserves are being utilized to fund various mental health programs and Trust recommendations with the intent of drawing reserves down over a period of five years.
