

State of Alaska FY2022 Governor's Operating Budget

Department of Health and Social Services Facilities Management Component Budget Summary

Component: Facilities Management

Contribution to Department's Mission

Provide quality project management, program management, and administrative services in support of the department's programs, facilities, and capital projects.

Core Services

- Manage capital appropriations for the department, both deferred maintenance and major proposals, including planning, design, construction, equipment, capital grants, and large information technology development projects.
- Assess the short and long-term needs of the 42 Department of Health and Social Services-owned buildings to continue to meet the programmatic needs of the divisions.
- Negotiate departmental agreements for partnering and land issues.

Major Component Accomplishments in 2020

- Managed 12 new capital grants and successfully closed 15 grants.
- Managed 20 Community Initiative Matching Grants and five COVID-19 Grants.
- Managed three Human Services Community Matching Grants.
- Solicited \$940 for capital grant programs that target Trust beneficiaries, Essential Program Equipment, Home Modification and Upgrades, and Emergency Medical Services Match for Code Blue.
- Managed 22 new capital construction contracts and 5 new professional services contracts, while successfully closing 16 construction contracts and 3 professional services contracts within budget.

Key Component Challenges

- Less funding means fewer projects and project amounts, while forecasted deferred maintenance responsibilities continue to increase.
- Programmatic and proactive/preventative projects continue to take on a lesser priority and have been put on hold to focus on short term, emergent, life safety and security needs.
- Public health mandates closed all DHSS facilities to non-essential people and stopped or slowed several construction and deferred maintenance projects.

Significant Changes in Results to be Delivered in FY2022

Focus has shifted towards short-term, emergent and imminent need projects, resulting in a significant reduction of programmatic and proactive/preventive capital projects. Continued work with facilities on preventive maintenance plans using existing Building Maintenance Management Systems to reduce overall capital deferred maintenance needs.
