

**Kodiak Fire Station**

**FY2023 Request:** \$0  
**Reference No:** 64430

**AP/AL:** Appropriation  
**Category:** Public Protection  
**Location:** Kodiak

**Project Type:** Construction  
**House District:** Kodiak/Cordova/Seldovia (HD 32)

**Impact House District:** Kodiak/Cordova/Seldovia (HD 32)

**Contact:** Micaela Fowler

**Estimated Project Dates:** 07/01/2021 - 06/30/2026 **Contact Phone:** (907)465-2506

**Brief Summary and Statement of Need:**

The existing Kodiak Fire Station was damaged in the 2018 Southcentral earthquake and is located within a tsunami hazard zone. The City of Kodiak has funded site selection and pre-development, concept design, and geotechnical site analysis for construction of a new fire station. The selected property fronts on Mill Bay Road and has ample frontage to support an apron serving up to six drive-thru apparatus bays while also accommodating necessary parking and return vehicle access. It is located well clear of the tsunami inundation zone and allows for excellent emergency response times.

**Prior Funding History / Additional Information:**

The existing station was constructed in three phases (Phase 1 in early 60s; Phase 2 in late 60s; Phase 3 in late 70s or early 80s) and was never designed with a specific purpose of being a fire station. The building served as a public works building for several years before becoming a fire station. Replacement of the station became critical after a magnitude 7.9 earthquake on January 23, 2018, which highlighted structural deficiencies that put emergency personnel and equipment at risk.
