Increase Residential Schools Program funding to the Lower Yukon School District's (LYSD) Career and Technical Education (CTE) Residential Program to move the program from being a variable-term residential school to a mixed variable-term/year-long program and increase the number of students that can be served through the program.

Pursuant to AS 14.16.100, the department opened a period of application from May 1, 2021 to June 30, 2021 for the Residential Schools Program. LYSD submitted a revised application for the previously approved CTE Residential Program, which is operated in conjunction with the Anchorage School District (ASD). The current program services a maximum of 50 11th or 12th grade students from LYSD who leave their community for up to nine weeks to receive CTE training from ASD instructors. LYSD requested an increase to the students they can serve from 50 to 70 students and open the residential school to any rural student that wants to attend the Anchorage Middle College program. The additional 20 students will reside at the residential school the full year. Currently, LYSD's residential school is a district-wide variable-term program with a 50-student count maximum. LYSD is requesting to expand their program to include a statewide year-long program and increase the bed count in order to accommodate up to 20 students from other rural districts so that they can attend year-round at the Alaska Middle College. This is a partnership between LYSD, Anchorage School District, and the University of Alaska and provides students from other rural districts the opportunity to attend the already established program at the Alaska Middle College, and utilize available space within LYSD's residential facility.

Year-long programs allow students to have access to the same educational program for the entire school year. Variable-term programs, while approved to fund the same number of students throughout the entire school year, provide sessions of residential instruction to different groups of students by bringing them into the educational program for a limited time. Variable-term programs can vary in length, and LYSD's requested change is a nine-week program.

Sec. XX. DEPARTMENT OF EDUCATION AND EARLY DEVELOPMENT. The amount of federal receipts received from the American Rescue Plan Act of 2021 (Part B Section 611 and Section 619) for the Individuals with Disabilities Education Act (IDEA), estimated to be \$9,266,700, is appropriated to the Department of Education and Early Development for the fiscal years ending June 30, 2022, June 30, 2023, and June 30, 2024.

The Federal American Rescue Plan (ARP) Act of 2021 (H.R. 1319) included supplemental federal fiscal year 2021 funding for the Individuals with Disabilities Education Act (IDEA). Under this provision, Alaska received grant awards totaling \$9.3 million, which includes \$8.6 million under Part B Section 611 of IDEA and approximately \$700,000 for preschool grants under Section 619.

These funds are provided to state educational agencies (SEAs) and lead agencies to help recover from the impact of the coronavirus pandemic and to safely reopen schools and sustain safe operations. With the significant reduction in travel, neither position is fully utilized. Additionally, the reduction in travel has reduced some of the demand on a third Education Associate II position (05-1759). The duties of two positions can be consolidated to one, and any overflow can be directed to the third position which currently has some additional time available to fully realize efficiencies in the division.

<b>Add Carryforward Language for General Fund Program Receipts collected for the Aquatic Center</b>

Add carryforward language for the unexpended balance of the appropriation for general fund program receipts collected for the Mt. Edgecumbe Aquatic Center. Currently, GFPR collected for aquatic center fees must be used in the fiscal year collected. Allowing GFPR to be carried forward into the following fiscal year will allow MEHS the ability to use the receipts on facility operations and not have the revenue collections for the aquatic facility lapse into the general fund at the end of the fiscal year. The aquatic center has not had a full year of operations – FY2020 was the first year of operations and FY2021 was significantly impacted by the COVID-19 pandemic.												
Add the following language in the numbers section: The amount allocated for Mt. Edgecumbe Aquatic Center includes the unexpended and unobligated balance on June 30, 2022, of program receipts from aquatic center fees.

On March 11, 2021, the federal American Rescue Plan (ARP) Act of 2021 (H.R. 1319) was signed into law. This act includes an allocation of \$2.2 million to the State of Alaska from the Institute of Museum and Library Services (IMLS). The IMLS will provide funding to the State Library Administrative Agency, the Division of Libraries, Archives, and Museums (LAM), to award grants that support the vital programs and services that have been impacted by the COVID-19 health emergency. IMLS provided the following priorities for spending:

- a. First, to enable libraries to reach residents with internet hotspots, accessible Wi-Fi, and other digital inclusion efforts, particularly in support of education, health, and workforce development needs. The following types of data, among others, can inform efforts to reach underserved populations:
  - Poverty/Supplemental Nutrition Assistance Program (SNAP);
  - Unemployment;
  - Broadband availability;
- b. Second, to provide rapid emergency relief to libraries across the country, allowing them to safely respond to the pandemic and implement public health protocols;
- c. Third, to support library services that meet the needs of communities throughout the U.S., including costs such as personnel, technology, training, materials, supplies, equipment, and associated indirect costs; and
- d. With respect to (a), (b), or (c), reach tribal and museum partners best positioned to assist with pandemic response efforts, in addition to traditionally eligible library entities, where appropriate.

Funding is available until September 30, 2022. There is no match requirement for these funds and no Maintenance of Effort provision. Funding will be awarded to local libraries, archives, and museums throughout the state based on a competitive grant application process. The Division of Libraries, Archives and

The department has been awarded a new federal grant for Preparing Alaska's Cultural Organizations for Emergencies from the National Endowment for the Humanities. This three-year grant allows the Libraries, Archives and Museums (LAM) to train staff at libraries, archives, and museums, as well as records managers in emergency preparedness and response so they can mitigate risks and care for collections and facilities when disasters strike. LAM will work with consultants and staff from the U.S. Department of Homeland Security and the Department of Natural Resources to develop workshops and a training program that will build the capacity of Alaska's collecting institutions to prepare for and respond to disasters.												
This project is in line with AS 14.56.030, AS 14.57.010, and AS 40.21.070, which mandates the Alaska State Library, Alaska State Museum, and the Alaska State Archives to assist in the development of Alaska libraries and museums and provide assistance to records managers. The grant period is from March 1, 2020 through February 28, 2023.

Fiscal note out-year projections have been updated to reflect actual expenditures.

School BAG was expanded through the passage of SB 74 Internet for Schools. The legislation increased the megabit threshold from 10 megabits to 25 megabits per second (Mbps). The fiscal note calculation was based on bringing a maximum of 173 schools up to the increased speed. The out-years of the fiscal note estimated an annual three percent reduction.

As the program is implemented and internet costs decrease, the cost of the program has also decreased resulting in excess funding. In FY2022, all 28 eligible school districts consisting of 154 schools were funded at the full amount and the department is projecting to lapse approximately \$1,629.0. This reduction does not represent the full excess authority, and instead reserves approximately \$600.0 to accommodate any new applications during FY2023.

The Alaska Student Loan Corporation (ASLC) continues its recovery from the 2010 elimination of the federally guaranteed loan program and the national collapse of the asset-backed securities markets. Those events resulted in low annual originations and high portfolio runoff, eliminating the economies of scale the Corporation previously operated under and requiring significant cost reductions to retain Corporation financial health. As of 2021, the Alaska Commission on Postsecondary Education (ACPE), funded by ASLC, has documented the following successes in cost reductions:

- Implemented a LEAN continuous improvement program in 2015, with cumulative savings in excess of \$897,000.
- Gradually increased loan originations since the low in 2015 until loans in 2020 began decreasing again due to the impact COVID-19 had on postsecondary attendance.
- Implemented outsourcing of approximately \$40 million in federally guaranteed loans and technical efficiencies resulting in a decrease from 106 to 57 PCNs, with the FY23 proposed additional four position reductions taking the total PCN count to 53.
- Reduced the annual operating budget by almost \$5 million since FY15.
- Implemented an Alaska refinancing program, building a \$20 million refinance portfolio since 2016.
- Revised loan programs to provide reduced rates for high-FICO borrowers, attracting new volume in supplemental loans.
- Redeemed the Corporations outstanding 2013 Series bond notes that will provide cost reductions related to the administration, accounting, reporting and compliance monitoring tasks and other related expenditure reductions.

Additional projects in process:

- Introduced a bill last session (HB114 and SB94) for statutory change to revise loan limits to meet student and institutional demand and to offer expanded loan programs options to reduce student costs and reduce loan losses.
- Reduced leased space by approximately 21% based on PCN reductions and implementation of teleworking as appropriate.
- Outsourcing of servicing and origination of state loan programs.

Delete the following four vacant positions and remaining authorization that is no longer needed due to duties being outsourced or absorbed by other positions.

Transfer the Alaskan Education Grant Program to a new component to improve budget transparency. The Alaska Education Grant program was formerly budgeted within the Program Administration & Operations component. The former budget structure inflates the Program Administration & Operations budget and perpetuated the misunderstanding that this authority is part of ACPE operations. This structure change sets these grants in a stand-alone component and Results Delivery Unit (RRU) titled State Financial Aid Programs which clearly identifies them as state educational financial aid to be used for higher education and postsecondary programs in Alaska and provide for more transparency and oversight for these pass-through grants. The Alaska Performance Scholarship component is also located under the State Financial Aid Programs RDU.

The State of Alaska has collaborated with the UWSOM for 50 years to provide publicly supported medical education to citizens of Alaska. When WWAMI began, Alaska trained ten students in each class. In 2007, the class size increased to 20 students per class.
