

AP/AL: Appropriation **Project Type:** Equipment
Category: Health/Human Services **Recipient:** Various
Location: Statewide **House District:** Statewide (HD 1-40)
Impact House District: Statewide (HD 1-40) **Contact:** Amy Burke
Estimated Project Dates: 07/01/2022 - 06/30/2027 **Contact Phone:** (907)465-1624

Brief Summary and Statement of Need:

Continue to support communities' purchase of essential emergency medical response equipment. The Code Blue Steering Committee was formed to identify and purchase critical Emergency Medical Services (EMS) equipment and ambulances for agencies around the state, particularly in rural locations. This year \$500,000 is required to match federal, local, and private funds that are allocated to all seven regional offices for needs such as: ambulances, heart monitors, training equipment, and communications equipment. One dollar of State general funds leverages greater than four dollars in other fund sources.

Funding:	FY2023	FY2024	FY2025	FY2026	FY2027	FY2028	Total
1003 G/F Match	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000		\$2,500,000
Total:	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000	\$0	\$2,500,000

This request is associated with several prior requests relating to the Emergency Medical Services Match for Code Blue Project.

Project Description/Justification:

The Code Blue Program is coordinated by a steering committee comprised of representatives from the Alaska Section of Emergency Programs and the seven Emergency Medical Services regions:

- Interior Region Emergency Medical Services Council, Inc.
- Maniilaq Association
- North Slope Borough
- Norton Sound Health Corporation
- Southeast Region Emergency Medical Services Council, Inc.
- Southern Region Emergency Medical Services Council, Inc.
- Yukon Kuskokwim Health Corporation

To provide effective life-saving services, the Emergency Medical Services Ambulances and Equipment Statewide - Match for Code Blue Capital Grant Program assists with ambulances, first responder personnel needs, and adequate and reliable emergency medical equipment. The Department of Health and Social Services, in collaboration with the Emergency Medical Services regional offices throughout the state, has documented a critical need for essential capital equipment and ambulances, particularly in rural communities. Many old ambulances and equipment were purchased with federal grants in the late 1970s and early 1980s. These vehicles and equipment must be replaced to ensure the continued viability of a statewide, comprehensive, life-saving emergency medical services system.

Funds are distributed through the following process which ensures that a request is for an essential capital item, is medically appropriate and reasonable, and that a priority is assigned to each request for funding:

- The regions annually solicit requests for essential capital equipment.
- A request must be accompanied with a strong justification.
- The requests and justifications are reviewed, approved, and prioritized by the regional Emergency Medical Services offices. Patient care items must be approved by a physician medical director at the local or regional level.
- The regional office forwards approved requests to the Code Blue Steering Committee; alternately, the region may deny the request or seek further justification and explanations in order to make a sound decision.
- Costs of individual items range from \$300 to over \$200,000 for a fully equipped ambulance.

Small communities do not have the ability to independently meet these needs but they must maintain emergency medical services to ensure a comprehensive response to emergencies. Throughout the

state, most items, especially vehicles, have a 10 to 15-year life expectancy. There is always a community requiring replacement of a vehicle or other essential equipment.

Through a collaborative effort of various funding agencies such as the United States Department of Agriculture (USDA), the Rasmuson Foundation, the Denali Commission, and local communities, over \$22,000,000 of new equipment has been purchased since program inception in FY2002. Key to this success is the local match pledged by communities, leveraging of other funding sources, and the considered use of the capital funds made available annually for Code Blue matching funds. Requests continue to come in each year to replace broken and outdated items, ensuring that the system remains healthy. The Rural Development Office has a community grant program that can fund up to 75% of the cost of an ambulance and medical equipment for communities that meet certain eligibility criteria. The remaining 25% must be provided as matching funds. Funds received through this appropriation will be used to match funds from the federal government and other sources and will help purchase equipment for communities that have critical equipment needs but are ineligible for other funding.

The Federal Rural Development Office Community Grant Program is an ongoing program that Alaska can access on an annual basis to support replacement of outdated emergency medical services equipment and ambulances. Requests for replacement of equipment depend on depreciation or obsolescence. The ongoing capital appropriation demonstrates to other funding agencies that the state is committed to the Emergency Medical Services Code Blue program.
