

State of Alaska
FY2023 Governor's Operating Budget

Department of Health
Fraud Investigation
Component Budget Summary

Component: Fraud Investigation

Contribution to Department's Mission

Providing cost-effective detection and deterrence of public assistance applicant and recipient fraud, and contributing to public assistance program integrity, financial solvency and the public's confidence in the Division of Public Assistance.

Core Services

- Investigate public assistance applicant and recipient fraud allegations received from the public and division staff. Cases of proven fraud result in administrative sanctions and/or criminal prosecutions. An automated system tracks progressively severe administrative disqualification penalties for clients committing welfare fraud. Fraudulently received benefit debt amounts are determined and recovered.

Major Component Accomplishments in 2021

- The unit's combined total dollar value of cost avoidance, fraud claims established, and direct savings from imposed disqualification periods for all completed public welfare fraud investigations for FY2021 totaled over \$933K.
- Continued working collaboratively with the United States Department of Agriculture, Food and Nutrition Service under Alaska's State Law Enforcement Bureau agreement. Through this agreement, the Division of Public Assistance works with federal, state, and local law enforcement agencies to identify and investigate public assistance recipients who are involved in the trafficking of Food Stamp benefits.
- The unit was able to secure funding to extend the maintenance contract for its Fraud Case Management System (i-Sight).

Key Component Challenges

- Reducing the backlog of fraud referrals awaiting investigation. Incoming fraud allegations are prioritized to first address cases involving current benefit recipients. The number of referrals, at times, exceeds the productive capacity of the unit.
- Increasing the number of cases accepted by the Department of Law for criminal prosecution. An active prosecution effort is an added deterrent to welfare fraud and is a key component of successful fraud control.
- Providing effective staff development and training in investigative techniques and practices. It takes time for new staff to be trained and to reach the full productive capacity of experienced investigators.
- Strengthening operational procedures to more efficiently manage the growing and complex investigative workload related to child support services.
- Increasing the number of completed investigations that result in administrative disqualification hearings when the individual opts not to sign a hearing waiver.
- Continued work on drafting regulations establishing clear authority to enable fraud investigations and application of sanctions for intentional violations for the Adult Public Assistance; Senior Benefits; General Assistance; Women, Infants, and Children (WIC); and Heating Assistance programs.
- Work on procedures and clarify the authority to expand the component's focus to enable investigation of Medicaid and Child Care Assistance program fraud.
- Providing regularly scheduled investigator field visits to Southeast and rural Alaska communities to conduct applicant and recipient fraud investigations where there are no fraud investigators located in the district offices. NOTE: This has been suspended due to COVID-19 pandemic protocols.
- Increasing the number of completed investigations involving categorically ineligible recipients. This includes public assistance recipients that are incarcerated and residing outside of the State of Alaska.
- Identifying and securing additional staff resources to address the increasing volume and complexity of investigations.
- Continued implementation of a COVID-19 plan allowing Fraud Control Unit staff the ability to investigate and seek remedy of public assistance fraud allegations through telecommuting.

Significant Changes in Results to be Delivered in FY2023

- Increase fraud investigator visits to remote communities to conduct applicant and recipient fraud investigations once COVID-19 protocols are lifted.
- Reduce the number of pending fraud investigations by prompt referral to disqualification hearings when clients refuse waiver offers and by identifying and closing pended referrals with a low probability of success due to issues that are difficult to prove fraudulent (i.e., household composition) or have little cost effectiveness.
- Increase the number of cases prepared for referral to the Department of Law for criminal prosecution.
- Increase the number of intentional program violations detected and successfully proven by client consent, administrative disqualification hearing decision, and criminal prosecutions.
- Increase the amount of fraud debt established by successful investigative outcomes and collected on new and existing fraud claims.
- Increase the amount of direct savings realized through disqualification of fraudulent individuals.
- Enhance staff expertise in investigating allegations of child care assistance program fraud.
- Pursue a state statute regarding Supplemental Nutrition Assistance Program (SNAP) benefit trafficking and strengthened eligibility and benefit fraud prosecution and repayment for the Medicaid; Adult Public Assistance; Senior Benefits; General Assistance; Child Care Assistance; Women, Infants and Children (WIC); and Heating Assistance programs.
- Work collaboratively with United States Department of Agriculture, Food and Nutrition Services and partner agencies to identify and investigate public assistant recipients who are involved in the trafficking of their Electronic Benefit Transfer (EBT) benefits.
