Project Description/Justification:

The Quality Housing & Work Responsibility Act of 1998 established the Public Housing Capital Fund Program under amended section 9 of the Housing Act of 1937. It provides funds annually to Public Housing Authorities for capital and management activities, including modernization and development of public housing.

This project includes federal authority anticipated to be available in the fiscal year. The program provides funding for the renovation or replacement of various public housing units statewide. Presently, Alaska Housing estimates a total deferred maintenance need of \$21.4 million for its public housing units.

Projected Outcomes

- Public housing rental units that are decent, safe and sanitary, and affordable;
- Opportunities to conduct energy audits and code compliance inspections.
