

Surface Transportation Program

FY2023 Request: \$669,500,000

Reference No: 32610

AP/AL: Appropriation

Project Type: Construction

Category: Transportation

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Dom Pannone

Estimated Project Dates: 07/01/2022 - 06/30/2027

Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project is for federal surface transportation improvements as outlined in the Statewide Transportation Improvement Program (STIP), the Fixing America's Surface Transportation Act (FAST), and the annual federal appropriations acts. The STIP is the state's four-year program for transportation system preservation and development. It includes interstate, state and some local highways, bridges, ferries, and public transportation, but does not include airports or non-ferry-related ports and harbors. It covers all system improvements for which partial or full federal funding is approved and that are expected to take place during the duration of the STIP.

- Sec4 Ch30 SLA2007 P110 L15 SB53 \$332,845,300

Project Description/Justification:

Each year, the department requests legislative authority for the Surface Transportation Program based on the amount and type of federal highway funds estimated to be available to the state in a federal fiscal year.

This budget is based on estimates of the federal-aid highway funding that will be available in Federal Fiscal Year (FFY) 2023 through 2027 under the Infrastructure Investment and Jobs Act (IIJA). FFY2023 is represented as the closest approximate forecast. FFY2024-2027 are rounded down to account for fluctuation in the program. Federal Fiscal Year 2028 is not expected to maintain IIJA levels of funding and has been forecasted at Fixing America's Surface Transportation Act (FAST) Act levels of funding with an inflation factor applied.

Federal statutes (23 USC 135) require that to use federal-aid highway funding from the U.S. Department of Transportation or the Federal Highway Administration, the state must develop a Statewide Transportation Improvement Program (STIP). The STIP must cover all surface transportation improvements for which partial or full federal funding is approved and that are expected to take place during the four-year duration of the STIP. Alaska's surface transportation program is mostly driven by federal funds and requirements.

The Department of Transportation & Public Facilities is required to carry out a continuing, cooperative, and comprehensive statewide transportation planning process that includes a stringent public participation process to afford public involvement opportunities and provide reasonable public access to technical and policy information used in the development of the STIP. This process includes notifying cities and boroughs impacted by changes in the STIP, so officials have an opportunity to evaluate and comment on the impacts changes to the STIP have on their communities. In addition, as part of the non-metropolitan consultation process, the department reviews and considers resolutions, plans, and project priorities of local governments.

This STIP includes additional projects that could proceed if additional funding becomes available. The STIP is a four-year, fiscally-constrained planning and programming document that is continuously revised to adjust for project schedules and funding categories as projects develop. Should a scheduled project encounter delays and be unable to advance as proposed, actual project bids come in lower than estimated, or if sufficient funds are identified for other reasons, the department selects projects from the STIP list that best serve the interests of the state in the maintenance and operation of the surface transportation system.

Please check <http://dot.alaska.gov/stwdplng/cip/stip/index.shtml> for the most up-to-date approved STIP.
