

Rural Airport Improvement Program

FY2023 Request: \$200,000,000

Reference No: 61033

AP/AL: Allocation

Project Type: Construction

Category: Transportation

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Dom Pannone

Estimated Project Dates: 07/01/2022 - 06/30/2027

Contact Phone: (907)465-2956

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

This project is for airport improvements at State-owned airports, which are eligible for federal funding as outlined in the Federal Aviation Administration (FAA) Airport Improvement Program (AIP). This program is currently authorized under the FAA Reauthorization Act of 2018 and federal appropriations acts. This project is for the Rural Airport System, which is comprised of 235 airports located throughout the State.

- Sec1 Ch16 SLA2013 P81 L14 SB18 \$149,547,000

Project Description/Justification:

Airports are capital-intensive enterprises, requiring significant resources to fund land acquisition, airfield development, and supporting infrastructure to successfully meet the operational demands of the airlines and the service demands of the traveling public.

The Department of Transportation & Public Facilities (DOT&PF) receives federal funding through the Airport Improvement Program (AIP). In general, AIP funds are used for projects that enhance airport

safety, capacity, security, and environmental concerns. Most airfield capital improvements, repairs, property acquisition, and professional services (such as planning, surveying, and design) are eligible.

All projects must meet Federal Aviation Administration (FAA) regulatory and policy requirements regarding adequate justification and compliance with FAA design standards, in addition to meeting all federal environmental, permitting, and procurement requirements.

Proposed airport project needs are collected and entered into the DOT&PF's Alaska Airport Needs Directory and AIP Needs list through input from aviation interests, community representatives, FAA staff, the Alaska State Legislature, and DOT&PF staff.

DOT&PF scores projects based on aviation criteria and guidance and prepares detailed project nomination sheets and estimates for most major construction projects. Criteria include safety, health and quality of life, economic development, maintenance and operations issues, local capital contribution to project cost, and others. The project nomination goes through a regional screening process and then is evaluated by the Aviation Project Evaluation Board. The Board scores project nominations statewide. The projects are then ranked, and the highest-scoring projects are considered for inclusion in the AIP Spending Plan. In some cases, projects are included in the Spending Plan based on federal requirements from the FAA or the Transportation Security Administration (TSA).

The AIP Spending Plan is a planning and programming document that is continuously revised to adjust for project schedules and cost estimate changes as projects develop. Should a scheduled project encounter delays and be unable to advance as proposed, if actual project bids come in lower than estimated, or if sufficient funds are identified for other reasons, the Department selects alternative or supplemental projects from the AIP Spending Plan that best serve the interests of the state in the maintenance and operation of the aviation system.

To be eligible to receive federal funding to construct an AIP project, the project must meet the following prerequisites:

- Project prioritized (scored and ranked for most major construction projects)
- Project is included in the AIP Spending Plan
- Adequate Legislative authority obtained
- Environmental analysis completed and approved by FAA
- Airport Layout Plan approved by FAA
- Airspace coordination completed by FAA
- Sufficient land interests have been acquired
- Project design completed and approved by FAA

This project primarily covers aviation system improvements for which federal funding is obligated beginning during the fourth quarter of federal fiscal year (FFY) 2022 and extending through FFY2023. This project also may be used for obligating contingency projects and projects funded beyond FFY2023, as needed.

Projects may be added or deleted over time as the Spending Plan evolves. Please check http://dot.alaska.gov/stwdav/documents/Rural_Airport_System_AIP_Spending_Plan.pdf for the most up-to-date AIP Spending Plan.
