Project Description/Justification:

Established in 1848, St. Michael's Russian Orthodox Cathedral is the first Orthodox Cathedral in North America. Since 1962, St. Michael's has been a 'National Historic Landmark', our nation's highest honor for historic buildings. Other less historic buildings are placed on the National Register of Historic Places. To lose this landmark to decay would be a significant cultural and historical loss to our state. Time and weather have taken their toll on this historic church. The bell tower and adjacent roof are near failure and emergency repairs are needed. This funding will support immediate stabilization of the bell tower to ensure it does not collapse. Volunteer and in-kind donations are expected from the community.
