Prior Funding History / Additional Information:

Project Description/Justification:

Requested funding for CIP of the Tok Visitor Center and Tok Community Library facility in Tok. Like most publicly owned facilities it has a long list of deferred maintenance. The 5,000 square foot log structure was originally built in the early 1990s by State of Alaska Appropriations from 1991 to 1993 for the Tok Chamber of Commerce Visitor Center and the Tok Community Library and it has served this function ever since.

Since that time, all maintenance and upkeep has been done by volunteers in the community. With the facility now 30 years old, the deferred maintenance needs to be addressed.

Upgrades to of the boilers, heat system, and plumbing would begin as soon as grant is awarded, assuming the summer months of 2023.
