

State of Alaska FY2024 Governor's Operating Budget

Department of Family and Community Services Foster Care Augmented Rate Component Budget Summary

Component: Foster Care Augmented Rate

Contribution to Department's Mission

Provide for the cost to care for foster children with physical, developmental, and mental disabilities, in addition to the already provided foster care base rate.

Core Services

- Reimburses foster care providers for extraordinary costs and higher levels of supervision not otherwise covered by the Foster Care Base Rate program.

Major Component Accomplishments in 2022

The Office of Children's Services provided augmented difficulty-of-care benefits to 316 children. Children who qualify for these rates have special needs that require more intensive care from the foster parent. Covered benefits include additional training for the caregivers, and the additional management and supervision of children due to mental or physical disabilities, physical aggression, sexual disorders, and social conflict issues. The Office of Children's Services has taken steps to centralize the initial and continued assessment of augmented rates into the State Office.

Key Component Challenges

The Office of Children's Services continues to experience an increase in the number of children receiving an intensive augmented rate because of children being waitlisted for Medicaid Intellectual and Developmental Disabilities waiver services. Additionally, continuation of the intensive augmentation may be necessary while the youth is on a Medicaid Intellectual and Developmental Disabilities waiver when services are unavailable in the child's location. The Office of Children's Services is also experiencing an increase in the number of children considered as difficult to place. The current augmentation structure and rate has not met the needs of this cohort of children in care in traditional foster care home settings. A change has been made to the difficulty of care augmentation regulation that allows OCS to provide a third level augmented rate. As the need continues to grow, OCS is considering a change to the intensive augmented rate regulation.

Significant Changes in Results to be Delivered in FY2024

- The Office of Children's Services performs an annual analysis and evaluation of the foster care augmented rates to ensure that the foster care augmented rates continue to meet the needs of children in care.
- The Office of Children's Services will continue efforts to centralize the review and assessment of augmented rates for consistency and continued evaluation.
