Align authority with the statutory distribution of the balance in the Restorative Justice Account. The Restorative Justice Account is created as a separate account in the dividend fund. The state shall transfer from the dividend fund to the restorative justice account each fiscal year an amount equal to the amount that would have been paid during the previous fiscal year to individuals who were ineligible to receive dividends under AS 43.23.005(d) if they had been eligible. The amount for dividends that would have been paid this year to individuals who were sentenced or incarcerated under AS 43.23.005(d) and would have otherwise been eligible is \$25,109,464.00. This funding is distributed in the budget in accordance with AS 43.23.048(b).

House Bill 265 requires the department to pay for all services provided through telehealth in the same manner as if the services had been provided in person, except as provided in AS 47.07.069(b).												
In order to implement this bill, the Division of Behavioral Health needs one full-time Public Health Informaticist 2, based in Anchorage, to review, assess, and monitor the clinical appropriateness of the expanded behavioral health telehealth services, including collecting substantial medical evidence, as needed, to disallow a service from being implemented via telehealth; to assess the clinical outcomes associated with telehealth services, including telehealth modalities; and to pull, review, and assess Medicaid claims data for post payment reviews, federal reporting, and audits. The salary amount for this position is prorated in FY2023 to reflect a September 1, 2022 hire date.												
Additional budget authority is needed to purchase equipment and additional office supplies for the position and to cover department and state chargebacks to support this position.

In FY2023, the unallocated rates adjustment was distributed throughout the department to the divisions that will use the fund sources. Departmental Support Services used the federal receipts and general fund match to reduce chargebacks to the divisions in FY2023 and is allocating that authority to the divisions in FY2024.												
The total amount allocated to Departmental Support Services; Administrative Support Services for FY2023 was: - \$984.4 Federal Receipts -- Departmental Support Services; Administrative Support Services - \$492.0 GF Match -- Departmental Support Services; Administrative Support Services												
The FY2023 unallocated rates adjustment will be allocated in FY2024 as follows: - \$140.1 total -- \$93.8 Federal -- \$46.3 GF Match -- Behavioral Health, Behavioral Health Administration - \$142.1 total -- \$95.2 Federal -- \$46.9 GF Match -- Health Care Services, Medical Assistance Administration - \$483.9 total -- \$324.2 Federal -- \$159.7 GF Match -- Public Assistance, Public Assistance Field Services - \$340.8 total -- \$228.3 Federal -- \$112.5 GF Match -- Public Health, Public Health Administrative Services - \$213.2 total -- \$142.8 Federal -- \$70.4 GF Match -- Senior and Disability Services, Senior and Disability Services Administration - \$156.3 total -- \$100.1 Federal -- \$56.2 GF Match -- Departmental Support Services, Administrative Support Services												
<b>Transfer Medicaid Program Specialist (06-2329) to Commissioner's Office to Support the Medicaid State Plan Administrator</b>												
	Trout	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	-1	0	0

The State of Alaska currently has one Medicaid State Plan Administrator. This position is responsible for maintaining the Medicaid State Plan across divisions as well as the state's contract with the federal Center for Medicare and Medicaid Services (CMS) covering all aspects of the Alaska Medicaid program. Federal funding for the Medicaid program is contingent upon maintaining and amending the Medicaid State Plan in accordance with federal requirements. This position

serves as the statewide expert policy analyst for meeting the State Plan requirements.												
The following position is transferred to support the Medicaid State Plan Administrator to ensure compliance with federal partners: - Full-time Medicaid Program Specialist 3 (06-2329), range 18, located in Anchorage												
<b>Reverse MH Trust: Behavioral Health Screening in Primary Care</b>												
	OTI	-50.0	0.0	0.0	-50.0	0.0	0.0	0.0	0.0	0	0	0
1092 MHTAAR		-50.0										
Support for a behavioral health screening system in primary care for children and youth and referral to care coordination and/or behavioral health services. This effort will build on identified priorities consistent with Mental Health Trust Authority funded Bring the Kids Home efforts, as well as national best practices related to integrated care and early identification and intervention of behavioral health needs for children and youth. The creation of a behavioral health screening system for primary care providers is expected to improve population health and reduce cost outcomes of the 1115 waiver through early identification and treatment of behavioral health issues in children.												
<b>Reverse MH Trust: Evidence Based Practice: Family Treatment Model</b>												
	OTI	-100.0	0.0	0.0	-100.0	0.0	0.0	0.0	0.0	0	0	0
1092 MHTAAR		-100.0										
Leverage state and potential federal funding to support identification and implementation of family treatment and recovery evidence-based practices (EBPs) that allow for local training. A training center with EBP model training options will be widely accessible to multiple providers and communities around the state, led by a multi-disciplinary and community driven advisory group. This project aligns with the 1115 waiver efforts to divert high-risk youth from intensive treatment which is costly and traumatic for children and their families. Supporting an array of preventative and therapeutic EBP models for families and children will promote early intervention and preventative therapy services that have historically been difficult to access for families.												
Options for family treatment and recovery EBPs will be identified for an in-state family therapy training, coaching, and fidelity monitoring process with a steering committee to provide oversight.												
<b>Reverse MH Trust: Individual Placement and Supports (IPS) Capacity Building</b>												
	OTI	-30.0	0.0	0.0	-30.0	0.0	0.0	0.0	0.0	0	0	0
1092 MHTAAR		-30.0										
The Individual Placement and Supports (IPS) Capacity Building project will support staff in comprehensive coordination, training, and oversight of IPS systems development and grantee support throughout the state.												
Through this project, IPS fidelity reviews, training, technical assistance, and general outreach and awareness related to beneficiary employment will be conducted. Additionally, collaboration with the IPS national technical assistance and training program and services will be aligned with the FY22 Empowerment Through Employment conference coordinated by the Governor's Council on Disabilities and Special Education to ensure streamlined access to accurate and effective supports for Alaskan supported employment providers.												
<b>Reverse MH Trust: Partner Access Line-Pediatric Alaska (PAL-PAK) (FY21-FY23)</b>

										PFT	PPT	NP

Support the fifth and final year of the Partner Access Line – Pediatric Alaska (PAL-PAK) project. This project is match funding for a five-year federal grant allowing Alaska primary care providers access to tele-psychiatric consultation through Seattle Children’s Hospital and connection to local resources through Help Me Grow Alaska. The project continues to show positive results with high satisfaction reported from primary care providers.

The project supports capacity development for pediatric primary care and behavioral health integration in pediatric settings. Integrated care increases access to early intervention for children and families experiencing behavioral health needs, effectively decreasing the need for higher levels of care. This integration strategy has been identified as a Mental Health Trust Authority and Department of Health priority for several years.

**Reverse MH Trust: Peer Support Certification (FY21-FY23)**

	OTI	-130.0	0.0	0.0	-130.0	0.0	0.0	0.0	0.0	0	0	0
1092 MHTAAR		-130.0										

This project was developed from a Mental Health Trust Authority and State partnership related to workforce development and standardization of peer support as a profession and behavioral health service. FY2022 funds continue work initiated in previous years and follow a multi-year plan to fully develop and implement a certification body and standardized training offerings for peer support workers statewide in the behavioral health field. The development of this certification and training has been collaborative and productive between the State, the Trust, and key stakeholders.

Peer support is a foundational recovery-oriented strategy within the Beneficiary Employment and Engagement Focus Area and a critical service highlighted in the 1115 Medicaid Behavioral Health Waiver.

**Reverse MH Trust: Peer Support Certification (FY21-FY23)**

	OTI	-50.0	0.0	0.0	-50.0	0.0	0.0	0.0	0.0	0	0	0

<p>This project leverages state and federal funding to support continued development of the new Family Services Training Center (FSTC) in partnership with the University of Alaska Anchorage Center for Human Development. The project is in partnership with the Alaska Department of Health, Division of Behavioral Health (DOH/DBH) and offers training opportunities for behavioral health professionals that work with families across Alaska. The FSTC offers online training that professionals can access in a variety of formats including face-to-face and through videoconference. FSTC also offers live technical assistance support calls and webinars to help professionals apply what was learned in training. Behavioral health professionals who receive high quality training provide higher quality services and the families they work with have a better chance of coping with adversity, developing resilience, and improving their overall well-being.</p> <p>This project aligns with the 1115 waiver efforts to divert high-risk families and youth from intensive treatment which is costly and traumatic. Supporting an array of preventative and therapeutic models for families and children allows DBH to promote early intervention and preventative therapy services that have been historically difficult to access for families. Mental Health Trust Authority Authorized Receipts (MHTAAR) funds will support diversification of the FSTC portfolio of practitioners to include early childhood providers supporting families with young children, particularly those at high risk of or currently involved with child welfare. Funds will be administered by DOH/DBH to support implementation of findings from ongoing planning with a steering committee to provide oversight.</p>

<p>The Crisis Now system is a best practice framework for developing and implementing crisis stabilization services for people experiencing a behavioral health crisis. The Mental Health Trust Authority works with various departments within the state and community partners to stand-up this system of care in Fairbanks, Mat-Su, Anchorage, and Juneau. These care grants will be awarded to entities that are partnering with the community to provide less restrictive options for people having a behavioral health crisis. Currently, law enforcement agencies and/or emergency medical services are the typical responders to these individuals in crisis. These system care grants will unify community partners and develop a Crisis Now system of care with trained behavioral health professionals meeting the needs of Alaskans having a behavioral health crisis instead of law enforcement and/or emergency medical services.</p> <p>This program will be housed and administered in Behavioral Health Treatment and Recovery Grants.</p>

PosAdj		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	0	0
The Division of Health Care Services needs a new position to perform specific assignments that support the Background Check Program activities, functions, and service delivery of 25,000-30,000 annual background checks. This position supports and will be supervised by the Program Coordinator (06-1991) who has a greater scope of responsibility and authority for the coordination of major activities, operational component and functions associated with the Background Check Program and delivery of service. Under the general guidance of the Program Coordinator, this position will work in collaboration with other members of the Background Check Program unit to support the efficient and effective delivery of programs in Alaska. The work of this position helps protect vulnerable Alaskans and ensures health care facilities are safe.												
The following position is added: - Full-time Project Assistant (16-#029), range 16, located in Anchorage

Senate Bill 173 is expected to have an impact on Medicaid provider enrollment. The requirements in Sec 08.36.242 and Sec 08.36.243 relating to specialist licenses are expected to increase the volume of enrollment change requests and the level of effort to process new enrollment applications. Health Care Services needs one part-time, range 18, Medicaid Program Specialist 2 position in Anchorage to perform the additional work. Additional authority is needed for office supplies, a computer, software, and office equipment for the new position.

House Bill 265 requires the department to pay for all services provided through telehealth in the same manner as if the services had been provided in person, except as provided in AS 47.07.069(b).												
In order to implement this bill, the Division of Health Care Services needs one full-time Medicaid Program Specialist 3, based in Anchorage, to facilitate an anticipated increase in the volume of telehealth credentials being applied to the provider enrollment files at new enrollment and validation. The position will conduct additional post-payment review of telehealth claims to ensure compliance with state and federal rules surrounding the delivery of telehealth services, including establishing new review strategies within the Surveillance and Utilization Review unit and working with current data-analytics vendors to develop compliance strategies and peer group comparison algorithms. The salary amount for this position is prorated in FY2023 to reflect a September 1, 2022 hire date.												
Additional budget authority is needed to purchase equipment and additional office supplies for the position and to cover department and state chargebacks to support this position.

1003 G/F Match		46.9										

In FY2023, the unallocated rates adjustment was distributed throughout the department to the divisions that will use the fund sources. Departmental Support Services used the federal receipts and general fund match to reduce chargebacks to the divisions in FY2023 and is allocating that authority to the divisions in FY2024.

The total amount allocated to Departmental Support Services; Administrative Support Services for FY2023 was:  
 - \$984.4 Federal Receipts -- Departmental Support Services; Administrative Support Services  
 - \$492.0 GF Match -- Departmental Support Services; Administrative Support Services

The FY2023 unallocated rates adjustment will be allocated in FY2024 as follows:  
 - \$140.1 total -- \$93.8 Federal -- \$46.3 GF Match -- Behavioral Health, Behavioral Health Administration  
 - \$142.1 total -- \$95.2 Federal -- \$46.9 GF Match -- Health Care Services, Medical Assistance Administration  
 - \$483.9 total -- \$324.2 Federal -- \$159.7 GF Match -- Public Assistance, Public Assistance Field Services  
 - \$340.8 total -- \$228.3 Federal -- \$112.5 GF Match -- Public Health, Public Health Administrative Services  
 - \$213.2 total -- \$142.8 Federal -- \$70.4 GF Match -- Senior and Disability Services, Senior and Disability Services Administration  
 - \$156.3 total -- \$100.1 Federal -- \$56.2 GF Match -- Departmental Support Services, Administrative Support Services

Additional federal authority is needed for the American Rescue Plan Act (ARPA) Child Care Block Grant discretionary funds which expire September 30, 2024. Improvements are being made in the Child Care Assistance Program to make it more accessible and supportive for parents and providers which will inform strategies such as:

- Support parents that are eligible for childcare assistance by covering the cost of co-payments (this will be re-determined on a quarterly basis due to funding availability).
- Provide grants to families not typically covered by childcare assistance including those utilizing non-traditional care hours and those ineligible due to income.

1007 I/A Rcpts		-110.0										
Transfer interagency receipt authority from Nursing to Emergency Programs for a reimbursable services agreement related to the Homelessness Project. Funding for the Homelessness Project was appropriated to the Commissioner's Office, but Public Health staff will be responsible for the project. As a result, a new Epidemiology Specialist 2 (06-7423) will be supported in FY2023 through a reimbursable services agreement with the Commissioner's Office. Nursing can support their interagency needs with the remaining authority.

Alaska continues to have the highest rate of tuberculosis (TB) in the U.S. During the first half of the 20th century, an epidemic of TB devastated Alaska's indigenous peoples, who continue to bear a disproportionate burden of disease today. The Alaska TB Elimination Plan outlines strategies to decrease TB incidence in Alaska Native people by 25% by 2031.												
As part of the Healthy Families Initiative, this work will be implemented by expanding the targeted TB screening/treatment capacity statewide in order to detect and treat latent TB before it becomes active and infectious. The department will also support efforts to recruit qualified public health nurses to rural high-incidence parts of the state, incentive programs to increase staff retention, expand electronic Directly Observed Therapy (eDOT) pilot program, and comprehensively evaluate epidemiology of endemic TB in rural Alaska (including factors such as housing shortages and economic challenges).

This project builds on the work of the Trust and advisory boards, specifically related to the Alaska Mental Health Board/Advisory Board on Alcohol and Drug Abuse (AMHB/ABADA), in the ongoing data linkage and analysis of Adverse Childhood Experiences (ACEs) and the impact on lifelong health and Trust beneficiary outcomes. Funds will support staff and/or contractual work guided by the Division of Public Health's Section of Women, Children, and Family Health. The project will plan, organize, and implement data analyses to guide development of data-driven strategies and policies related to early intervention and prevention and enhance statewide capacity to comprehensively evaluate childhood trauma-related data. The project will work closely with Trust staff, advisory board staff and the various departments in developing near and long-term plans for ongoing initiatives that support the Trust and board mission, vision, and priority areas related to early intervention and prevention of behavioral health disorders.

**MH Trust: Foster Care Health Record Linkage (FY24-FY27)**

1092 MHTAAR	IncT	100.0	0.0	0.0	100.0	0.0	0.0	0.0	0.0	0	0	0
		100.0										

The Foster Care Health Linkage Project will support a long-term non-permanent staff position within the Department of Health, Division of Public Health to address the challenge of providing timely data on children's health care needs and prior diagnosis to case workers and medical professionals who are working with them, and improving the health, safety and wellbeing of children who are in state custody. When the state assumes custody of a child, it is obligated to ensure that the health, safety, and wellbeing of that child is secure. To provide adequate and efficient health care, a complete health record is necessary. Currently the health information collected and maintained is fragmented and often incomplete.

Although developing an Electronic Health Record (EHR) is the clear need, an intermediary step is to continue and expand a data linkage pilot project into the next phase through development of the new staff position identified above. The pilot project linked a few children that were recently placed into foster care with Medicaid, Birth Defects Registry, Newborn Hearing and Metabolic screening systems using a limited set of partial identifiers contained in each system (names, sex, and date of birth). Although this pilot project only provided partial information, it was deemed beneficial by Office of Children's Services (OCS) staff in charge of ensuring each foster placement is medically appropriate. The staff would also partner with legal counsel and continue stakeholder engagement to identify the technical needs of data holders and to refine the design of the Electronic Health Record (EHR) system while additional funding is sought for the project infrastructure.

In FY2023, the unallocated rates adjustment was distributed throughout the department to the divisions that will use the fund sources. Departmental Support Services used the federal receipts and general fund match to reduce chargebacks to the divisions in FY2023 and is allocating that authority to the divisions in FY2024.

The total amount allocated to Departmental Support Services; Administrative Support Services for FY2023 was:  
 - \$984.4 Federal Receipts -- Departmental Support Services; Administrative Support Services  
 - \$492.0 GF Match -- Departmental Support Services; Administrative Support Services

The FY2023 unallocated rates adjustment will be allocated in FY2024 as follows:  
 - \$93.8 Federal -- \$46.3 GF Match -- Behavioral Health, Behavioral Health Administration  
 - \$95.2 Federal -- \$46.9 GF Match -- Health Care Services, Medical Assistance Administration  
 - \$324.2 Federal -- \$159.7 GF Match -- Public Assistance, Public Assistance Field Services

The shortage of health care professionals in Alaska is addressed in SB93 by establishing a Health Care Professionals Workforce Enhancement Program (known as "SHARP-3") in which health care professionals agree to work for three years in underserved areas in exchange for repayment of student loans or direct incentives. Employers will fully fund the program including the cost to administer the program. An advisory council provides oversight and evaluation of the program. Maximum payment amounts, adjusted by the five-year average of the Consumer Price Index, are set in statute. Health care professionals must meet eligibility criteria and be engaged in qualified employment. Payments are made after the professional completes a calendar quarter of qualified employment and are prorated based on number of qualified employment hours the professional worked.

House Bill 308 mandates the creation of a new program focused on dementia awareness. It requires the development and implementation of evidence based, data informed strategies for an effective public awareness campaign that includes assessments of the systems of care designed to serve those impacted by dementia.

Travel authority is needed for training and convening community partners and those with live experience to develop a strategic plan to implement all aspects of the legislation.

Services authority is for contracts which will focus on development of a statewide strategic plan along with these supporting activities to implement the overall public education awareness campaign: creation of educational materials for distribution; assessments of systems; support for outreach activities; support to maintain and publish annual data, general information, create and evaluate existing resources, and support to create a centralized public-facing user friendly website that can be actively maintained.

Commodities authority is for computer equipment for the new position.

This funding will support the development of a foundational level dementia program that may grow over time if future applications for competitive federally available funding for dementia programs (i.e., BOLD Act) are successful.

Open beds is a cloud-based platform that provides real-time treatment facility availability, two-way digital provider communication, data analytics, and clinical decision support. It is a secure cloud-based behavioral health capacity and referral platform that provides real-time access and referral capabilities between call centers, providers, stakeholders, and community members. This platform identifies, unifies, and tracks Alaska's behavioral health resources. The benefits include continued support of a centralized technological platform that connects referring entities to identified available receiving providers. This will connect beneficiaries to mental health and substance use disorder treatment and enhance the likelihood of recovery for those with mental illness and/or substance use disorder, in addition to reducing their potential of death, and hospitalizations.

Alaska ranked in the top ten nationally for sexually transmitted diseases (STDs) in 2019, and in 2020, Alaska saw the highest number of congenital syphilis (CS) cases ever recorded in the state. Congenital syphilis (CS) occurs when a pregnant woman who is infected with syphilis transmits the infection to her fetus. The CDC estimates that sexually transmitted infections (STIs) cost the U.S. health care system nearly \$16 billion each year in lifetime medical cost alone.												
As part of the Healthy Families Initiative, Department of Health, Section of Epidemiology will work to decrease the incidence and increase prevention of syphilis by:												
- Increasing testing and treatment capacity and supplies statewide												
- Increasing financial support for public health personnel within community-based clinics												
- Launching comprehensive communication campaign to prevent STIs												
- Focusing prevention efforts on at-risk populations including those with substance use disorder and people experiencing homelessness												
<b>Adopt Recommendations in the Alaska Tuberculosis Elimination Plan</b>

Alaska continues to have the highest rate of tuberculosis (TB) in the U.S. During the first half of the 20th century, an epidemic of TB devastated Alaska's indigenous peoples, who continue to bear a disproportionate burden of disease today. The Alaska TB Elimination Plan outlines strategies to decrease TB incidence in Alaska Native people by 25% by 2031.												
As part of the Healthy Families Initiative, this work will be implemented by expanding the targeted TB screening/treatment capacity statewide in order to detect and treat latent TB before it becomes active and infectious. The department will also support efforts to recruit qualified public health nurses to rural high-incidence parts of the state, incentive programs to increase staff retention, expand electronic Directly Observed Therapy (eDOT) pilot program, and comprehensively evaluate epidemiology of endemic TB in rural Alaska (including factors such as housing shortages and economic challenges).

The Department of Health (DOH) Division of Public Health – Bureau of Vital Statistics will continue managing the annual data collection, document revisions, and web-postings for the Alaska Scorecard.												
The Alaska Scorecard, developed collaboratively between the Department of Health and Social Services (now DOH) and the Mental Health Trust Authority in 2008, continues to represent an annual effort to compile and publish population-level indicators to monitor trends and track changes in the lives and circumstances of Trust beneficiaries and other Alaskans. The scorecard is an important component of the infrastructure used to track the impact of the DOH - Comprehensive Integrated Mental Health Program and resources needed for improving outcomes for Alaskans. The scorecard webpage is viewed frequently and has served as an example for other scorecards in state government, such as the State’s Healthy Alaskans 2030 leading health indicators.

Senate Bill 173 transfers responsibility for the registration and certification of dental radiologic devices from the Board of Dental Examiners to the Department of Health, effective July 1, 2023.												
There are approximately 2,200 individual dental devices/practices currently licensed for radiological equipment by the Board of Dental Examiners. Due to the volume of devices, the Division of Public Health will hire two positions to provide support to the program and coordination with licensed dentists. Travel costs will be incurred to perform on-site, routine inspections and costs for office supplies and other basic expenses, such as phones, rent, and utilities.												
One-time expenditures include the purchasing of testing equipment, developing a radiological health database to handle the additional load, a field laptop, phone, and workstation for the new position												
The following positions are added:												
- Full-time Radiological Health Physicist 1 (16-#046), range 19, located in Anchorage												
- Part-time Office Assistant 2 (16-#047), range 10, located in Anchorage

Senate Bill 173 transfers responsibility for the registration and certification of dental radiological devices from the Board of Dental Examiners to the Department of Health, effective July 1, 2023.												
There are approximately 2,200 individual dental devices/practices currently licensed for radiological equipment by the Board of Dental Examiners. Due to the volume of devices, the Division of Public Health received a full-time Radiological Health Physicist 1, range 19, located in Anchorage and a part-time Office Assistant 2, range 10, located in Anchorage in FY2023 to provide support to the program and coordination with licensed dentists.												
Through the second year of this bill, authority is increased to support the positions for the entire year, rather than eight months. Travel authority is established to perform on-site, routine inspections. One-time authority for purchases of testing equipment, developing a radiological health database to handle the additional load, a field laptop, phone, and a workstation for the new position is removed.												
This program will utilize interagency receipts from a reimbursable services agreement with the Department of Commerce, Community, and Economic Development as part of the fees charged to licensed dentists.												
<b>Transfer from Bureau of Vital Statistics to Support Laboratory Activities</b>

**Support Efforts to Eliminate Congenital Syphilis**

1004 Gen Fund	Inc	705.0	205.0	0.0	0.0	500.0	0.0	0.0	0.0	0	0	0
---------------	-----	-------	-------	-----	-----	-------	-----	-----	-----	---	---	---

Alaska ranked in the top ten nationally for sexually transmitted diseases (STDs) in 2019, and in 2020, Alaska saw the highest number of congenital syphilis (CS) cases ever recorded in the state. Congenital syphilis (CS) occurs when a pregnant woman who is infected with syphilis transmits the infection to her fetus. The CDC estimates that sexually transmitted infections (STIs) cost the U.S. health care system nearly \$16 billion each year in lifetime medical cost alone.

As part of the Healthy Families Initiative, Department of Health, Section of Epidemiology will work to decrease the incidence and increase prevention of syphilis by:

- Increasing testing and treatment capacity and supplies statewide
- Increasing financial support for public health personnel within community-based clinics
- Launching comprehensive communication campaign to prevent STIs
- Focusing prevention efforts on at-risk populations including those with substance use disorder and people experiencing homelessness

**Adopt Recommendations in the Alaska Tuberculosis Elimination Plan**

1004 Gen Fund	Inc	225.0	75.0	0.0	0.0	150.0	0.0	0.0	0.0	0	0	0
---------------	-----	-------	------	-----	-----	-------	-----	-----	-----	---	---	---

Alaska continues to have the highest rate of tuberculosis (TB) in the U.S. During the first half of the 20th century, an epidemic of TB devastated Alaska's indigenous peoples, who continue to bear a disproportionate burden of disease today. The Alaska TB Elimination Plan outlines strategies to decrease TB incidence in Alaska Native people by 25% by 2031.

As part of the Healthy Families Initiative, this work will be implemented by expanding the targeted TB screening/treatment capacity statewide in order to detect and treat latent TB before it becomes active and infectious. The department will also support efforts to recruit qualified public health nurses to rural high-incidence parts of the state, incentive programs to increase staff retention, expand electronic Directly Observed Therapy (eDOT) pilot program, and comprehensively evaluate epidemiology of endemic TB in rural Alaska (including factors such as housing shortages and economic challenges).

<b>Reverse MH Trust: Maintain Aging and Disability Resource Centers</b>												
1092 MHTAAR	OTI	-300.0	0.0	0.0	0.0	0.0	0.0	-300.0	0.0	0	0	0
Older Alaskans, persons with disabilities, family caregivers, and community members require a reliable source for information and referral on how to access a wide range of services (related to health, home care, financial support, housing, transportation, equipment and other health and social needs) which is critical to help individuals navigate complex programs and systems. The Aging and Disability Resource Centers (ADRC) also provide options counseling to assist individuals with understanding the services to make informed decisions. With the rapidly increasing number of older Alaskans, demand for access to this information is growing and support for a statewide infrastructure is critical to ensure timely access to services. Aging and Disability Resource Centers are the entrance into the state's long-term care services delivery system and are identified as a strategy under the Department of Health's priority for long-term care.

Older Alaskans, persons with disabilities, family caregivers, and community members require a reliable source for information and referral on how to access a wide range of services (related to health, home care, financial support, housing, transportation, equipment and other health and social needs) which is critical to help individuals navigate complex programs and systems. The Aging & Disability Resource Centers (ADRC) also provide options counseling to assist individuals with understanding the services to make informed decisions. With the rapidly increasing number of older Alaskans, demand for access to this information is growing and support for a statewide infrastructure is critical to ensure timely access to services. Aging and Disability Resource Centers are the entrance into the state's long-term care services delivery system and are identified as a strategy under the Department of Health's priority for long-term care.

The State of Alaska's Early Intervention/Infant Learning Program (EI/ILP) is housed within the Department of Health's, Division of Senior & Disabilities Services (DHSS-SDS) which serves as a single point of entry for infants and toddlers whose families or others have concerns about their child's development. Under the Individuals with Disabilities Act (IDEA), EI/ILP is responsible for implementing services to young children, birth to three years, who experience developmental delays and disabilities.

In FY2023, community agencies will receive grants to hire highly qualified EI/ILP providers for up to four regional family service coordinator positions for an innovative project focused on high-risk families with young children. Family service coordinators will provide screening, developmental monitoring, relationship-based parenting guidance, and resource/referral supports to high-risk families with infants and toddlers referred by child welfare agencies. This project will provide services to at least 200 at-risk families annually who are not eligible for early intervention under existing funding source criteria. The project will also work to remove systems barriers and identify sustainable funding to support the work after Mental Health Trust Authority funding fades over time.

The overall goal of this project is to promote the success of children in their home communities by early identification of young beneficiaries who may not otherwise be identified and provide evidence-based services that support development and improve outcomes. By screening, evaluating, and enrolling more high-risk children in ILP services, beneficiary children are better prepared for kindergarten - a key indicator of later success. This project will support and strengthen parents' ability to effectively support their child's development by improving access to the resources they need. Family service coordinators will work to remove barriers to participation by tailoring family engagement strategies for this group of children and families. Pre-enrollment activities will be designed to increase engagement of this often transient and reluctant group of families who have children who are at increased risk of developmental delays, disabilities, and early mental health/social emotional concerns.

The implementation of National Core Indicators will be advanced. These National Core Indicators represent a major effort among states to standardize the collection of performance and outcome measures for home and community-based services. Standard data collection allows states to compare results and provides data for the establishment of national benchmarks. Data is gathered from a variety of surveys directed at consumers, families, and providers and is frequently used as part of quality assurance programs for Home and Community Based Services waivers. Including Alaska, 46 other states participate in the National Core Indicator program.

<p>Senior and Disabilities Services (SDS) will dedicate a full-time staff member to the telehealth project to support operating infrastructure. Individuals who receive personal care assistance or Medicaid waiver services require an annual reassessment conducted by a SDS nurse assessor to continue being eligible for services. Service recipients who live outside of the regional hub communities can experience difficulties getting timely assessments due to staff availability, weather, flight schedules, unexpected travel, individual medical needs, or other unexpected events. Delayed assessments are inefficient and can result in higher costs associated with travel and rescheduling. Through telehealth, reassessments are conducted with the individual service recipient participating at their local clinic through collaboration with the regional health organization. This position will explore the possibility of other services or functions using telehealth to meet with individuals, family, or community members to improve access and timeliness of receiving services. Telehealth increases access to services through timely assessments, internal efficiencies, and ability to shift high travel costs.</p>

This project funds the Alaska Commission on Aging (ACOA) planner position and projects to support state operating infrastructure. The planner is responsible for supporting the Executive Director in coordination between the ACOA and the Trust, including gathering data for reporting, coordination of advocacy and planning, and preparing ongoing grant progress reports to the ACOA and the Trust. The planner works with staff to maximize other state and federal funding opportunities for Mental Health Trust Authority Authorized Receipts (MHTAAR) projects and to ensure effective use of available dollars. In addition, the planner position acts as liaison with the other beneficiary boards, including participating in the development of state plans, working on collaborative projects, and other duties. The project funding supports the work of ACOA through training and to conduct outreach activities to connect with seniors who are Trust beneficiaries to

The Governor's Council on Disabilities and Special Education will continue to provide technical assistance to the Mental Health Trust Authority and public-private partners for implementation of key Beneficiary Employment and Engagement (BEE) strategies. Beneficiary Employment and Engagement strategies promote increased self-sufficiency for Trust beneficiaries through competitive integrated employment. In addition to individual beneficiary outcomes, increased workforce participation supports economic development and reduces reliance on publicly funded programs. The Council will serve as a liaison to the Department of Labor and Workforce Development, Division of Vocational Rehabilitation, to support implementation of Employment First and Supported Decision-Making Agreement legislation and provide technical assistance to the departments of Health and Labor and Workforce Development, provider agencies, and others who serve Trust beneficiaries.

------------	-----	-------	-------	-----	-----	-----	-----	-----	-----	---	---	---

The Governor's Council on Disabilities and Special Education (GCDSE) is Federally funded to fulfill specific roles mandated by Congress. It is an expectation of the Mental Health Trust Authority that the GCDSE participate in planning, implementing, and funding a Comprehensive Integrated Mental Health Plan that serves people with developmental disabilities and their families. The positions supported with this funding enable the GCDSE to provide up-to-date, valid information to the Trust on beneficiary issues, identify trends, participate in Trust activities, enhance public awareness, and engage in ongoing collaboration with the Trust and partner boards.

The Research Analyst 3 continues to provide the GCDSE with information about the needs of individuals with developmental disabilities and supports state operating infrastructure. Activities of this position, including travel, ensure GCDSE efforts are conducted within the framework of the Mental Health Trust Authority's guiding principles while still meeting Congressional requirements.

The Planner 3 provides expertise and support related to the Comprehensive Integrated Mental Health Plan for issues related to special education services and beneficiaries experiencing developmental disabilities. This position ensures the Trust has consistent access to critical comprehensive planning information and resources related to specific interests of beneficiary interests informed by the GCDSE.
