## **Prior Funding History / Additional Information:**

## **Project Description/Justification:**

The Department of Health will undertake a comprehensive review of the various rate structures within the Medicaid program to evaluate their effectiveness in providing access to sustainable and affordable health care services and supporting a robust continuum of care. This multi-year effort will include, but is not limited to, evaluating the underlying methodology, inflationary factors, frequency of rebasing, data collection, and other factors that impact the rate setting process.

Totals:

This project will be funded by ceded premiums transferred to the Division of Insurance from the Alaska Comprehensive Health Insurance Association (ACHIA). ACHIA administers the Alaska Reinsurance Program (ARP), and receives ceded consumer premium revenue from insurers when those consumers' claims fall under the ARP. ACHIA has received more premium revenues than are needed to fund ongoing operations, and has agreed to transfer this amount to the Division of Insurance in FY2024 for use in this rate review project.
