Appropriation: Statewide Federal Programs

Brief Summary and Statement of Need:

Emergency federal funds are available from the Federal Highway Administration for declared emergencies. Money spent within 180 days of a declared emergency is funded at 100 percent federal; after the 180th day, state matching funds of approximately nine percent are required. This appropriation may be used to address issues of an emergency nature with federal airport or highway formula funds.

FY2024 Request: \$10,000,000

Reference No: 38424

Funding from the Federal Highway Administration (FHWA) is available to repair and reconstruct damage resulting from natural disasters.

To qualify for the special FHWA Emergency Repair funds, the Governor must declare an event a disaster. Any maintenance and operation funds spent within 180 days of the declaration are reimbursed at 100 percent. Permanent reconstruction and repairs made after 180 days are reimbursed at the regular federal rate: 90.97 percent or 93.4 percent depending on the specific class of road.

No such program is available from the Federal Aviation Administration (FAA), but there are some occasions when FAA will give emergency projects priority during the nationwide discretionary fund competition.

Other possible uses of this appropriation include emergency security measures implemented because of terrorist threats. This authorization may also be used for the costs of emergency situations not covered by FHWA Emergency Repair funds or other special sources. The Commissioner's Office may use this appropriation for immediate preventive maintenance or reconstruction in emergency situations to prevent the loss of road or airport structures (once total costs are known, a general fund request will be needed to reimburse the federally ineligible costs).
