Brief Summary and Statement of Need:

The Dalton Highway Delineators Improvements project will replace existing white retroreflective marker assemblies along the Dalton Highway from Milepost 240 to Milepost 416 with new retroreflective marker assemblies that include yellow/amber reflectivity on the driver's left side of road, and white reflectivity on the driver's right side of road. This project is to improve safety conditions on the Dalton Highway when visibility and driving conditions are often very poor.
