Project Title:

Project Type: Remodel, Reconstruction and Upgrades

Healy Lake Village Council - Update the Wastewater Management System

State Funding Requested: \$150,000

House District: 36 / R

One-Time Need

Brief Project Description:

Update the wastewater management system including the leach field & septic tanks.

Funding Plan:

Total Project Cost:	\$200,000
Funding Already Secured:	(\$50,000)
FY2025 State Funding Request:	(\$150,000)
Project Deficit:	\$0

Funding Details:

2023-Healy Lake owns an excavator, a bull dozer, a back hoe, a loader, and a trailer that can all be utilized in this project.

2023-Healy Lake has the manpower in the form of a project manager/laborer/operator, an operator/laborer, and two laborers that will work in kind on the project.

2023-Healy Lake has \$50,000 in ARPA funding that can be utilized to improve sanitation.

2023-Healy Lake has gravel that has been sorted and washed that can be used in the process.

Detailed Project Description and Justification:

Healy Lake has a twenty six year old wastewater and sewer system that provides water and septic to the washeteria, and clinic with a central 2500 gallon septic and a leach field with ten rows of aerators. The system is old, with pipes that have failed and do not leach with sags and bellies in them.

Healy Lake's wastewater and sewer system are tied to the two main needs of the community, the washeteria as stated above, and the clinic.

This sytem supplies water, showers, and basic toilet needs to the majority of the homes in the village with only one home that has running water and septic functioning. This means that the community members are dependent upon the washeteria for their needs, and this system is inadequate, and inoperable due to design flaws, and the improvised band aid fixes beginning in 2000 through 2022.

The clinic, which we recently remodeled, ended up with a mainline waste back up into the clinic itself in January 2022, due

to the septic, manhole and leach field failure.

Project Timeline:

The project would begin as soon as the ground thaws, typically May/June and would run through the summer with completion planned for August of 2023.

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

Healy Lake Village Council

Grant Recipient Contact Information:

Name: Patricia L MacDonald
Title: President
Address: 600 University Avenue #100
Fairbanks, Alaska 99709
Phone Number: (907)831-0844
Email: patricia.macdonald@healylake.org

Has this project been through a public review process at the local level and is it a community priority? Yes No

Healy Lake Village Council
RESOLUTION NO. 2023- 0214

Healy Lake Village Council Resolution to Request State of Alaska CAPSIS Program Partnership for the Wastewater and Fresh Water Improvement of Healy Lake Village

WHEREAS; the Healy Lake Village Council is the recognized Native Governing body for the community of Healy Lake Village in which the Healy Lake Tribe is a Federally Recognized Tribe; and,

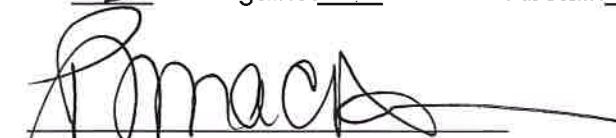

WHEREAS; the Healy Lake Village Council recognizes that all but one home in the Village of Healy Lake does not have functioning indoor plumbing. The majority of the homes plumbing is either lacking, inoperable or inadequate for sanitation and health purposes; and,

WHEREAS; the Healy Lake Village Council recognizes that the Village of Healy Lake and its Tribal Citizens depend on the Washeteria and Clinic for their drinking water, home sanitation water, septic services and medical needs; and,

NOW, THEREFORE BE IT RESOLVED, the Healy Lake Village Council requests the State of Alaska CAPSIS program to partner with the Healy Lake Village Council to overhaul and improve the fresh and wastewater management system at the Village, to include repair or replacement, retrofitting and/or new construction of fresh and wastewater lines to improve the health and wellbeing of the Tribal Members.

CERTIFICATION: The Healy Lake Village Council adopted this resolution numbered 2022 - 0214 during a meeting held on this day February 14th, 2023, at the Healy Lake Council office in Fairbanks, Alaska with a quorum present.
