

AP/AL: Appropriation **Project Type:** Energy
Category: Development
Location: Statewide **House District:** Statewide (HD 1 - 40)
Impact House District: Statewide (HD 1 - 40) **Contact:** Curtis W. Thayer
Estimated Project Dates: 07/01/2024 - 06/30/2029 **Contact Phone:** (907)771-3000

Brief Summary and Statement of Need:

The Alaska Energy Authority’s (AEA) Electrical Emergencies Program is critical to rural communities. Electrical emergencies can result in the loss of communications, lights, refrigeration systems, washeterias, water and sewer systems, and the use of other basic infrastructure and equipment. The program contributes to the Department of Commerce, Community, and Economic Development's mission of promoting a healthy economy and strong communities, as electricity is considered essential for both community development and economic growth.

Project Description/Justification:

The Electrical Emergencies Program often involves a life or safety issue and is the last resort for communities with an electrical emergency. This program provides support when an electric utility has lost or will lose the ability to generate or transmit power to its customers and the condition is a threat to life, health, and/or property. Funding provides the current level of technical support through the Electrical Emergencies Program.

Power outages are expensive and compromise public safety. Some risks include:

- Water and sewer systems freezing and bursting
- Fire hazards
- Medical clinics and other public facilities closing

Electrical emergencies may involve power plant failures and/or distribution system failures.

If the Alaska Energy Authority (AEA) is unable to respond, the response to loss of power emergencies will be redirected to the Department of Military and Veterans Affairs, Division of Homeland Security and Emergency Management, State Emergency Operations Center (SEOC).

AEA received \$200,000 in the FY2024 budget and anticipates funds will be depleted or nearly depleted by the beginning of FY2025.
