

Water Small System Assistance Grants

FY2025 Request: \$2,911,176
Reference No: AMD 65286

AP/AL: Appropriation
Category: Health/Human Services
Location: Statewide
Impact House District: Statewide (HD 1 - 40)
Estimated Project Dates: 07/01/2024 - 06/30/2029

Project Type: Water / Sewer / Solid Waste
Recipient: NA
House District: Statewide (HD 1 - 40)
Contact: Gene McCabe
Contact Phone: (907)269-7580

Brief Summary and Statement of Need:

This project provides grants for Small Water Systems from the Bipartisan Infrastructure Law funding set asides. The grants will provide support for various activities including obtaining emergency generators, addressing emerging contaminants, and completing the federally required lead service line inventory.

Prior Funding History / Additional Information:

Project Description/Justification:

The Infrastructure Investment and Jobs Act of 2021 (IIJA) includes appropriations for grant funding provided through the Drinking Water State Revolving Fund (DWSRF) and Clean Water State Revolving Fund (CWSRF) Local Assistant Set-Aside funds. The State Revolving Fund (SRF) Program will administer grant programs for small public water systems that serve a population of 10,000 or less. Grant recipients must be municipally owned or privately owned not-for-profit community water systems or non-profit, non-transient, non-community systems. Eligible projects for use of these grants include backup power generators to provide system resiliency in the event of power outages, lead service line inventories as required by the federal Lead and Copper Rule Revisions, and activities to address per- and polyfluoroalkyl substances (PFAS) and other emerging contaminants.
