Brief Summary and Statement of Need:

State match is required for approximately \$895 million in federal-aid highway funding. These funds may also be used for advanced acquisition of Right-of-Way (ROW) parcels for projects that are eligible for federal funding. These ROW parcels can be used in lieu of State matching funds on a federally funded project. It is also allowable that match funds be used for correcting off-system bridges. When the State performs work on improving bridges with non-federal funds, the value of this work can be credited as required match toward federally funded bridge work. This means each such match dollar serves the State twice, once correcting a bridge problem and again as a match credit.

State match is required for all federally eligible projects.

Project Description/Justification:

Each year the department estimates the amount of State matching funds based on the amount and type of federal highway funds expected to be available in a fiscal year. This budget is based on preliminary estimates of the federal-aid highway funding that will be available in FY2025. The department has estimated federal funding levels to be approximately \$895.6 million in program funds requiring a 10 percent State match.

The requested match amount is calculated as follows:

\$895.6 million / 90.97 percent = \$984.5 Million (program total including match amount)

\$ 984.5 million	Program total including match amount
- 895.6 million	Federal funds
<u>\$ 88.9 million</u>	Match needed
+ 1.0 million	Non-Participating portion of Federally Supported Local Assistance & Grants (FLAG)
+ <u>4.9 million</u>	Funds for federally ineligible current or past project costs (1/2 of 1% of program total)
\$94.8 million	Total match required for FY2025

\$94.8 million FY2025 capital budget project for match, Preliminary Engineering (PE) at risk, and federally ineligible costs for highway projects.
