FY2026 Request: \$1,066,183,335

Reference No: AMD 32610

AP/AL: Appropriation with Allocations

Category: Transportation

Location: Statewide

Impact House District: Statewide (HD 1 - 40)

Estimated Project Dates: 07/01/2025 - 06/30/2030

Project Type: Construction

Recipient: NA

House District: Statewide (HD 1 - 40)

Contact: Dom Pannone

Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project is for federal surface transportation improvements outlined in the Statewide Transportation Improvement Program (STIP), incorporated Transportation Improvement Programs (TIPs), Infrastructure Investment and Jobs Act (IIJA), and annual federal appropriations acts. The STIP and incorporated TIPs are the State’s multi-year program for federally funded and regionally significant transportation system preservation and development projects. It includes interstate, State, and local highways, bridges, ferries, and public transportation, but does not include airports or non-ferry-related ports and harbors.

Funding:	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	Total

- Sec14 Ch1 SLA2023 P98 L30 HB39 \$777,013,982
- Sec11 Ch1 SLA2022 P100 L15 HB281 \$868,509,954
- Sec8 Ch1 SLA2021 P84 L23 HB69 \$862,972,298

The Surface Transportation Program covers all system improvements for which partial or full federal funding is approved and that are expected to take place during the duration of the STIP.

Project Description/Justification:

Each year, the department requests legislative authority for the Surface Transportation Program (STP) based on the amount and type of federal highway funds estimated to be available to the State in a federal fiscal year.

This budget is based on estimates of the federal-aid highway funding that will be available in Federal Fiscal Year (FFY) 2026 through 2027 under the Infrastructure Investment and Jobs Act (IIJA). Fiscal Year 2026 is represented as the closest approximate forecast.

Federal statutes (23 USC 135) require that in order to use federal-aid highway funding from the U.S. Department of Transportation or the Federal Highway Administration (FHWA), the State must develop a STIP. The STIP must cover all surface transportation improvements for which partial or full federal funding is approved and are expected to take place during the four-year duration of the STIP. Alaska's surface transportation program is mostly driven by federal funds and requirements.

The Department of Transportation and Public Facilities is required to carry out a continuing, cooperative, and comprehensive statewide transportation planning process that includes a stringent public participation process to afford public involvement opportunities and provide reasonable public access to technical and policy information used in the development of the STIP. This process includes notifying cities and boroughs that are impacted by changes in the STIP, so officials have an opportunity to evaluate and comment on the impacts changes to the STIP have on their communities. In addition, as part of the non-metropolitan consultation process, the department reviews and considers resolutions, plans, and project priorities of local governments.

The STIP includes additional projects that could proceed if additional funding becomes available. The STIP is a four-year, fiscally constrained planning and programming document that is continuously revised to adjust for project schedules and funding categories as projects develop. Should a scheduled project encounter delays and be unable to advance as proposed, actual project bids come in lower than estimated, or if sufficient funds are identified for other reasons, the department selects projects from the STIP list that best serve the interests of the state in the maintenance and operation of the surface transportation system.

Please check <http://dot.alaska.gov/stip> for the most up-to-date approved STIP.

**(AC) Seward Highway Milepost 98.5-112 Bird Flats to

(AC) Glenn Highway Milepost 1-34 Rehabilitation: Airport Heights to Parks Highway [Stages 1 and 1B] **FY2026 Request: \$98,029,838**
Reference No: AMD 66874

AP/AL: Allocation **Project Type:** Construction
Category: Transportation **Recipient:** NA
Location: Anchorage Areawide **House District:** Anchorage Areawide (HD 9-24)
Impact House District: Anchorage Areawide (HD 9-24) **Contact:** Dom Pannone
Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956
Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will rehabilitate the Glenn Highway from the intersection with Airport Heights Drive (Milepost (MP) 1) to the Parks Highway (MP 34). This project may include bridge work, roadside hardware, drainage improvements, interchange improvements, utilities, and safety improvements, in coordination with Highway Safety Improvement Program safety improvements. The project is proposed to be constructed in logical stages. Stage 1 will rehabilitate the roadway between Airport Heights Drive (MP 1) and Hiland Road (MP 12).

Project Type: Research / Studies / Planning
Recipient: NA
House District: Statewide (HD 1 - 40)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project will support Highway Safety Improvement Program (HSIP) management, studies, responses, and policy making on safety-related issues. Fund headquarters support for Alaska's HSIP, Safety Management System (SMS), and Strategic Highway Safety Plan (SHSP). The goal of the HSIP, SMS, and the SHSP is to reduce deaths, injuries, and economic loss on all Alaska roads. Headquarters staff review, approve, and prioritize HSIP projects submitted by the regions. Staff compile and submit summary reports to the Federal Highway Administration and process and analyze crash data. Highway safety analysis, policymaking on safety-related issues, training programs, and other safety-related activities are funded under the SMS.

Impact House District: Kachemak Bay/Ninilchik/Kasilof (HD 6)

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project reconstructs and upgrades a 12-mile segment of the Sterling Highway. It includes widening the highway, creating passing lanes, resurfacing, adding scenic turnouts, improving drainage, making minor realignments, and updating configurations to meet American Association of State Highway and Transportation Officials (AASHTO) geometric standards. The project will replace Anchor River culvert No. 4020 with a new three-span bridge over the North Fork Anchorage River No. 1937 and replace the South Fork Anchorage River Bridge No. 666. The request includes the Parent/Final Construction project and Stage 3 Construction of this Highway Safety Improvement Program project.

Cascade Point Ferry Terminal Lease Payments

FY2026 Request: \$4,000,000
Reference No: AMD 66920

AP/AL: Allocation
Category: Transportation
Location: Juneau Areawide
Impact House District: Juneau Areawide (HD 3 - 4)
Estimated Project Dates: 07/01/2025 - 06/30/2030
Appropriation: Surface Transportation Program

Project Type: Construction
Recipient: NA
House District: Juneau Areawide (HD 3 - 4)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project includes lease payments for the operation of a new ferry terminal at Cascade Point, approximately 42 mile of Glacier Highway, north of Juneau, with direct access to Glacier Highway. Cascade Point is a land feature with suitable conditions to construct a new ferry terminal to improve multimodal connections between Juneau, Skagway, and Haines. The project is currently under design utilizing State funds, with the intent to pursue a public-private partnership.

Brief Summary and Statement of Need:

This project focuses on transitioning the Department of Transportation and Public Facilities (DOT&PF) fleet to lower-emission alternatives. Work includes developing designs for the installation of electric vehicle (EV) charging stations and alternative fueling facilities, procurement of electric vehicles, and installation of the designed infrastructure. These efforts aim to reduce carbon emissions and improve operational efficiency within the DOT&PF fleet, directly supporting the Alaska Carbon Reduction Strategy through practical, construction-based initiatives.

Brief Summary and Statement of Need:

This project will construct and/or maintain ice roads, seasonal roads, and other winter trails in Alaska to improve transportation access in rural and remote areas. This work may include establishing and maintaining ice roads, seasonal roads, and trails, as well as installing semi-permanent markings. Per 23 CFR 450.218(j), this Statewide Transportation Improvement Program project groups together categorically excluded projects for these efforts. Trails for snowmobiling and other off-road motorized vehicles are not subject to the location-of-projects requirement in 23 U.S.C. 133(c).

Avalanche Mitigation Program

FY2026 Request: \$3,183,950
Reference No: AMD 66947

AP/AL: Allocation
Category: Transportation
Location: Statewide
Impact House District: Statewide (HD 1 - 40)
Estimated Project Dates: 07/01/2025 - 06/30/2030
Appropriation: Surface Transportation Program

Project Type: Construction
Recipient: NA
House District: Statewide (HD 1 - 40)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project includes avalanche mitigation projects that lower maintenance costs, increase safety, and improve emergency response efforts, ensuring roads remain open. Funding will also support data collection, geographic information systems, and increased path modeling to enhance public safety and ensure the continuity of transportation. Avalanche mitigation measures reduce risk to travelers and minimize economic disruptions caused by road closures. Funding aligns with the broader objective of maintaining infrastructure resilience, crucial for Alaska's communities.

Pease Avenue Railroad Crossing Surface and Signal Upgrades [HSIP '24]

FY2026 Request: \$1,180,800
Reference No: AMD 66966

AP/AL: Allocation
Category: Transportation
Location: Anchorage Areawide

Project Type: Construction
Recipient: NA
House District: Anchorage Areawide (HD 9-24)

Impact House District: Anchorage Areawide (HD 9-24)

Contact: Dom Pannone

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will reconstruct the grade crossing surface and replace functionally obsolete signal equipment on Pease Avenue (crossing No. 868557Y). This crossing is permitted to the Alaska District, United States Army Corps of Engineers. This project will be constructed through a utility agreement with the Alaska Railroad Corporation.

Funding:	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	Total
1002 Fed Rcpts	\$1,180,800						\$1,180,800

Yukon Kuskokwim Frontier Road Construction

FY2026 Request: \$1,091,640
Reference No: AMD 66967

AP/AL: Allocation
Category: Transportation
Location: Koyukuk

Project Type: Construction
Recipient: NA
House District: Copper
 River/Delta/Tok/Yukon (HD 36)
Contact: Dom Pannone

Impact House District: Copper
 River/Delta/Tok/Yukon (HD 36)

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will construct a 24-foot-wide gravel road between the Yukon and Kuskokwim Rivers. The road would be 30 to 45 miles long. It would start on the southern side of the Yukon River, to the southeast of Paimiut, Alaska, and would end at the northern bank of the Kuskokwim River, between Upper Kalskag and Aniak, Alaska. This road would create opportunities to lower bulk cargo prices and promote economic opportunities for the 56 communities in the Association of Village Council Presidents region and four communities in the lower Yukon Tanana Chiefs Conference region.

House District: Statewide (HD 1 - 40)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project is a continuation of Phase I research, expanding the application of Direct Displacement Based Assessment to include reinforced concrete filled steel tubes, winter conditions, bridges with skew and curvature, abutment restraint conditions, and directionality. The goal of this research is to create an application tool able to rapidly assess bridges within a given inventory and generate an inspection priority list to facilitate engineers' work before deployment for on-site inspection. This tool will fully integrate the enhanced methodology developed during the project.

Brief Summary and Statement of Need:

The Cordova Ferry Terminal project modifies the existing Cordova ferry terminal to accommodate the Alaska Marine Highway System Alaska Class Ferry. These modifications will be carried out in partnership with the Prince William Sound Economic Development District and the State of Alaska, funded by a discretionary grant received from the United States Department of Transportation's Maritime Administration's Port Infrastructure Development Program.

Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project will focus on laboratory-based research to determine the potential of using fly ash sourced from Alaskan coal-fired power plants as a key component in developing an alternative soil stabilizer.

The tasks and objectives to be achieved through this research include:

- Task 1: Soil Characterization and Selection
- Task 2: Optimize Fly Ash-Based Stabilizer Mixture Design
- Task 3: Evaluate Engineering Properties of Stabilized Soil
- Task 4: Assess Durability of Stabilized Soil
- Task 5: Assess Environmental and Economic Impacts Using Life Cycle Assessment
- Task 6: Develop Performance-Based Recommendation and Final Report

Brief Summary and Statement of Need:

This project will continue the development and enhancement of the statewide framework for Motor Vehicle Emission Simulator modeling in Alaska to ensure consistent development, application, and approval of modeling workflows (e.g., input data collection and processing, model setup and execution requirements, post-processing of outputs, etc.) in all regional mobile source inventory applications envisioned within the state.

Recipient: NA
House District: Statewide (HD 1 - 40)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project includes the development of a generalized workflow to establish a baseline model and conduct anomaly detection for damage identification in bridges using remote sensing-based nondestructive techniques.

The work for this project includes:

- Task 1: Literature Review
- Task 2: Laboratory Trials and Bridge Site Selection
- Task 3: Field Data Collection
- Task 4: Data Processing and Analysis
- Task 5: Anomaly Detection using the Baseline Model
- Task 6: Recommendations and Final Report

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

The goal of this project is to reduce personal exposure to air pollution (such as carbon monoxide, particulate matter, as well as other pollutants) through education. The Statewide air quality public education project will focus on a number of air quality issues of concern to Alaska including, but not limited to, air pollution health/environment impacts and ways local citizens can mitigate air pollution from sources like motor vehicles, unpaved roads, diesel engines/heavy duty vehicles, wood smoke, open burning, residential heating, etc. There may also be a need to focus on transportation alternatives that can assist in improving air quality (pedestrian, bike, transit, car/van pool).

Brief Summary and Statement of Need:

This project funds the decennial statewide functional classification review and reclassification of Alaska's public roads. The project will conduct a thorough statewide review of all public roads and functional classifications, as well as the Alaska Marine Highway System routes. Work includes reviewing existing functional classification and following federal guidance, conducting interviews with local, State, and federal government, Native Alaskan tribes, conducting public outreach, creating a project website, and producing a final report. This project will be conducted using contractual services.

Impact House District: Bristol Bay/Aleutians/Kuspuk (HD 37)

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will include the design, permitting, and construction of a new dock to replace the community's only existing dock, which is nearing the end of its useful service life. The dock will be built to accommodate commercial use, freight and fuel transportation, private vessel use, and public use such as emergency medical services and the Alaska Marine Highway. Wider working areas will improve operational safety, and stronger materials will improve resilience to harsh weather conditions.

Project Type: Research / Studies / Planning
Recipient: NA
House District: Statewide (HD 1 - 40)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This ongoing program is a concerted effort by the State of Alaska, Department of Revenue, to ensure compliance with State and federal laws regarding the collection of motor fuel taxes. It involves comprehensive activities like auditing, inspections, investigations, and penal action, designed to detect and combat tax evasion. The program aims to secure vital revenue streams for maintaining and enhancing transportation infrastructure within Alaska, promoting fairness in tax responsibility, and upholding the integrity of the motor fuel tax system.

Brief Summary and Statement of Need:

The Homer All-Ages and Abilities Pedestrian Pathway project, funded by the Transportation Alternatives Program via the Department of Transportation and Public Facilities, entails the construction of a five-foot wide, approximately 4,950-foot-long asphalt sidewalk with crosswalk improvements across various locations to enhance pedestrian safety. This initiative includes adding concrete curbs, gutters, Americans with Disabilities Act-compliant ramps, and upgrading crosswalks with Rectangular Rapid Flashing Beacons and high-visibility markings. Additionally, it requires renovating certain city-maintained storm drains for effective stormwater management.

Microtransit Service AMATS

FY2026 Request: \$50,000
Reference No: AMD 67061

AP/AL: Allocation
Category: Transportation
Location: Anchorage Areawide

Project Type: Construction
Recipient: NA
House District: Anchorage Areawide (HD 9-24)

Impact House District: Anchorage Areawide (HD 9-24)

Contact: Dom Pannone

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will establish a new on-demand Microtransit service in Anchorage, to be managed by the Municipality of Anchorage Public Transportation Department. This project includes professional services, software, equipment and/or other Microtransit technology. The primary goals of the project are to connect residents to jobs, activity centers, and existing fixed-route bus service in the region while providing a low-cost transportation alternative to single-occupancy vehicles.

Funding:	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	Total
1002 Fed Rcpts	\$50,000						\$50,000

Naknek and King Salmon Non-Motorized Pathway [TAP Award 2023]

FY2026 Request: \$302,498
Reference No: AMD 67063

AP/AL: Allocation
Category: Transportation
Location: Naknek

Project Type: Construction
Recipient: NA
House District: Bristol Bay/Aleutians/Kuspuk (HD 37)

Impact House District: Bristol Bay/Aleutians/Kuspuk (HD 37)

Contact: Dom Pannone

Estimated Project Dates: 07/01/2025 - 06/30/2030 **Contact Phone:** (907)465-2956

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will construct a non-motorized pathway in both Naknek and King Salmon. The approximately 3.1 mile segment in Naknek will extend from Airport Road to Ledder Creek Road. The first 1,000-foot segment is concrete sidewalk with curb and gutter and the remainder is at-grade with the roadway, widened asphalt sidewalk with a two-foot wide painted buffer strip. The approximately one mile segment in King Salmon will extend from the intersections of West Housing Road to the Katmai National Park Service Road. The path matches the at-grade, widened asphalt sidewalk as the Naknek section.

Estimated Project Dates: 07/01/2025 - 06/30/2030
Appropriation: Surface Transportation Program

Project Type: Construction
Recipient: NA
House District: Mat-Su Areawide (HD 9-24)
Contact: Dom Pannone
Contact Phone: (907)465-2956

Brief Summary and Statement of Need:

This project will upgrade Seldon Road, between Wasilla Fishhook Road and Lucille Street, to an arterial highway standard with a separate pathway to address geometry, safety, and capacity issues. This project was selected in the 2023 Department of Transportation and Public Facilities Community Transportation Program solicitation.

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project funds new and existing facilities and bus stop sites to meet both the federally mandated Americans with Disabilities Act (ADA) requirements and operational needs. Typical bus stop activities include design/engineering, bus shelters, benches, trash receptacles, landscaping, grading, paving, utility relocations, lighting, curb adjustments, drainage, constructing paths, and construction/reconstruction of turnouts. Typical facility activities include design/engineering, upgrades, rehabilitation, and construction/reconstruction, including safety, security, facility equipment, structures, underground storage tanks, parking lots, sidewalks, and drainage.

Brief Summary and Statement of Need:

This project will pay for a contractor to facilitate the Strategic Highway Safety Plan (SHSP) implementation. Tasks include monitoring the strategies and action items on a regular basis; setting up frequent meetings with stakeholders; providing minor changes to the SHSP as priorities change; and developing supporting documents as needed to maintain multi-agency and executive support.

Brief Summary and Statement of Need:

In accordance with 23 USC 504(e), this project falls under the draft Alaska Transportation Human Capital Plan, designed to elevate the competencies and capabilities of our workforce in the transportation sector. This project is a critical component of the Alaska Transportation Human Capital Plan, which aims to support the plan's objectives by delivering customized training programs that enhance employee growth and development, promote on-the-job training, and improve existing training programs. Training will equip employees with the necessary skills to provide safe, efficient, and reliable transportation services to the public.

Appropriation: Surface Transportation Program

Brief Summary and Statement of Need:

This project will reconstruct Vintage Boulevard and Clinton Drive, including new three-inch asphalt roadways, widen shoulders to five-feet for multimodal users (Vintage Boulevard-only), and construct five-foot sidewalks full length on both sides of road. Work includes new curb and gutter, medians, and reconstructing below asphalt with new subbase and shot rock fill. No as-builts exist for storm drains, so new storm drain items have been included as placeholders only and will need survey work to adequately assess in design. This project was selected in the 2023 Department of Transportation and Public Facilities Community Transportation Program solicitation.

Appropriation: Federal Program Match

Brief Summary and Statement of Need:

State match required for federal programs funded by the National Highway Transportation Safety Administration, the Federal Motor Carrier Safety Administration, and the Federal Transit Administration. State match is required for all federally eligible projects. Match calculation includes an additional one percent for potential ineligible costs. In the event of an emergency the other federal program match may be used to cover state emergency costs for unforeseen catastrophic weather events and costs for response and repairs of critical maintenance/non-routine issues which are often additional unbudgeted costs exceeding the department's ability to absorb within annual operating budgets.

Reference No: 41923

Sec1 Ch15 SLA2009 P23 L5 SB75 \$1,160,000
 Sec13 Ch29 SLA2008 P161 L29 SB221 \$2,038,000
 Sec4 Ch30 SLA2007 P105 L23 SB53 \$1,638,000

Project Description/Justification:

Funds will be used to match federal funding and for federally ineligible costs for current or past projects funded by federal agencies other than the Federal Highway Administration and the Federal Aviation Administration. These projects are located in Statewide Federal Programs appropriation. Increase in Federal Transit Administration Match is needed to support additional federal funds available for fleet electrification for FY2024-2027.

The Department of Transportation and Public Facilities (DOT&PF) is allowed to retain 13 to 18 percent of the total program for Planning/Administration. The State is required to match the administration funds with hard (cash) match from the general fund ranging from five to 22.58 percent. The remaining federal award, not Planning/Administration, is for local grants. Subrecipients are required to provide local match or in-kind match. In the event of local match shortfall, due to subrecipients not providing enough, DOT&PF is required to meet the matching requirements of the federal award with State hard match.

Appropriation: Federal Program Match

Brief Summary and Statement of Need:

State match is required for approximately \$1.07 billion in federal-aid highway funding. These funds may also be used for advanced acquisition of right-of-way (ROW) parcels for projects that are eligible for federal funding. These ROW parcels can be used in lieu of State matching funds on a federally funded project. It is also allowable that match funds be used for correcting off-system bridges. When the State performs work on improving bridges with non-federal funds, the value of this work can be credited as required match toward federally funded bridge work. This means each such match dollar serves the State twice, once correcting a bridge problem and again as match credit.

Sec4 Ch30 SLA2007 P105 L17 SB53 \$40,000,000

State match is required for all federally eligible projects.

Project Description/Justification:

Each year the department estimates the amount of State matching funds based on the amount and type of federal highway funds expected to be available in a fiscal year. This budget is based on preliminary estimates of the federal-aid highway funding that will be available in fiscal year (FY)2026. The department has estimated federal funding levels to be approximately \$1.07 billion in program funds requiring a various State match percentage. The match amount is the aggregate of all federal projects within the corresponding Surface Transportation Program appropriation.

The requested match amount is calculated as follows:

\$	1.15 billion	Program total including match amount
-	<u>1.07 billion</u>	Federal funds
\$	88.2 million	Match needed
+	1.0 million	Non-Participating portion of Federally Supported Local Assistance and Grants (FLAG)
+	<u>5.8 million</u>	Funds for federally ineligible current or past project costs (1/2 of one percent of program total)
\$	95.0 million	Total match required for FY2026

\$95.0 million FY2026 capital budget project for match, Preliminary Engineering (PE) at risk, and federally ineligible costs for highway projects.

Federal Receipts from Alaska Transportation Infrastructure Bank

Project Description/Justification:

This project provides the State of Alaska with the opportunity to leverage designated general fund (DGF) revenues generated from the sale or lease of excess property that was originally purchased with federal funds. Under federal law, this can only be used on Title 23 eligible activities. Title 23 eligible uses of this funding include but are not limited to: construction, reconstruction, resurfacing, restoration, rehabilitation, and preservation of highways and bridges; construction, rehabilitation, or replacement of existing ferry boats and facilities, including approaches, that connect road segments; bridge and tunnel inspection and evaluation, as well as the training of bridge and tunnel inspectors; and highway safety projects.

Brief Summary and Statement of Need:

State match is required to pursue approximately \$464 million in federal Aviation Improvement Program funds and Infrastructure Investment and Jobs Act (IIJA) funds that rolled forward from Federal Fiscal Year (FFY) 2024 and FFY2025. The general fund match will be used for Rural Airport System projects, the non-federal match share was reduced by the Federal Aviation Administration for FFY2026 to five percent and is anticipated to increase back to 6.25 percent in FFY2027. The International Airports Fund will be used for match on Alaska International Airport System projects, the non-federal match share for Ted Stevens Anchorage International Airport is 12.24 percent and Fairbanks International Airport is 6.25 percent.

Funding:	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	Total
1003	\$23,773,636	\$28,883,249	\$29,749,746	\$30,642,239	\$30,642,239	\$30,642,239	\$174,333,348
GF/Match							
1027	\$21,564,913	\$21,298,139	\$21,937,083	\$22,595,195	\$22,595,195	\$22,595,195	\$132,585,720
IntAirport							
Total:	\$45,338,549	\$50,181,388	\$51,686,829	\$53,237,434	\$53,237,434	\$53,237,434	\$306,919,068

Sec14 Ch1 SLA2023 P98 L10 HB39 \$34,243,075

This State match may also be used for advanced acquisition of Right-of-Way (ROW) parcels for projects that are eligible for federal funding. A ROW can be used in lieu of State matching funds on a federally funded project, as well as preconstruction and preliminary engineering costs at risk. State match is required for all federally eligible projects. Match calculation includes an additional two percent for potential ineligible costs.

Project Description/Justification:

The department provides the required match funding based on the estimated federal funding that will be available for obligation in the immediate future. The Federal Aviation Improvement Program

funding level is based on the amount of federal funds that have historically been made available in recent years, as well as the amounts expected to be appropriated by Congress for FFY2026 and rollover Bipartisan Infrastructure Law (BIL) authority estimated to be available for FFY2026.

The requested match amount is calculated as follows:

Rural Airport Program

\$322.6 million in federal funds requires a five percent State match
 $\$322.6 \text{ million} / 95.00\% = \339.6 (program total including match amount)
 $\$339.6 \text{ million} - \$322.6 \text{ million} = \17.0 million match requirement

Rural Summary:

\$ 17.0 million rural airport program State match funding
+\$ 6.8 million funds for unforeseen federally ineligible airport project components (two percent of program)
\$23.8 million required for match and federally ineligible costs for current or past rural aviation projects

Aviation Funding Summary:

\$23.8M funded with general fund for Rural Airports
+\$21.6M funded with IARF (includes two percent for ineligible costs for current or past international airports projects)
\$45.4M Total Aviation Match

Appropriation: Federal Program Match

Brief Summary and Statement of Need:

This project provides receipt authority for local match funds to the Surface Transportation Program. The fund source is (1108) Statutory Designated Program Receipts which consists of program receipts for Title 23 or other federal surface transportation projects where local communities are providing cash match.

Funding:	FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	Total
